Liana is a car that
holds a very negative

impression among
people, there are a few
things attributed to its
failure. First it was a
Suzuki, the spares of
which were as
expensive as Honda.
People expect Suzukis
to be easy on pocket
since they used to be
this way since the 70s.

In 2001, Suzuki
designed a special
edition Liana to be able
to be used for hill climb
races. The car was
given a specially
designed space frame.
Sadly, the driver had to
retire the car with 1
mile left until the finish
line. Clearly the Suzuki
Aerio was a serious
contender in the

automotive market
worldwide.
