Sir John Tenniel - Illustration History

Book illustration as we now know it evolved from early European woodblock printing. In the early 15th century, playing cards were created using block printing, which was the first use of prints in a sequenced and logical order. "The first known European block printings with a communications function were devotional prints of saints."

This is a basic overview of some illustration techniques used in the examples we are analyzing, with the addition of some others that became popular in England in the course of the eighteenth century. David Bland, one of our main sources of explanations, claims that few English illustrators confined themselves wholly to a single method of engraving.
