Admirable in its goal and ambitious in its scope, David Reynolds' One World Divisible offers a truly global history of world events since 1945. Overall, it is a decent summary of the period (if 700 pages can be termed a summary) and could easily and confidently be used as a textbook for almost any modern history course, either as the central text or as a complement (I read it in class focusing on the Cold War).

One World Divisible: A Global History Since 1945 by David Reynolds. The second half of the twentieth century was dominated by the unfolding drama of the Cold War, from the Berlin blockade to the fall of the Berlin Wall. A booming global economy has had its sinister shadow in the apparently insoluble crises that have beset much of the Third World. Above all, peace in the West has been offset by wars of unbelievable murderousness elsewhere.
