thinking.

Systems Thinking | ScienceDirect

Systems thinking is a management discipline that concerns an understanding of a system by examining the linkages and interactions between the components that comprise the entirety of that defined system. The whole system is a systems thinking view of the complete organisation in relation to its environment.

Basic principles of systems thinking as applied to ...

Systems thinking expands the range of choices available for solving a problem by broadening our thinking and helping us articulate problems in new and different ways. At the same time, the principles of systems thinking make us aware that there are no perfect solutions; the choices we make will have an impact on other parts of the system.
