Looking at health through the lens of political determinants means analysing how different power constellations, institutions, processes, interests, and ideological positions affect health within different political systems and cultures and at different levels of governance. Bambra et al provide three arguments why health is political 1: health is unevenly distributed, many health determinants are dependent on political action, and health is a critical dimension of human rights and citizenship.

The political

determinants of health—10 years on | The BMJ

During the late 1960s and early 1970s, abortion rights emerged as a central concern for many women's rights activists, some of whom took on women's other health issues. The Politics of Women's Health Care in the United States shows how the evolution of the women's health agenda has been a reaction to the empowerment of women in the years after the emergence of the contemporary women's movement in 1966 and the subsequent 'social reconstruction' of women from dependent to advantaged population.
