The Story Of Salt

Salt, also referred to as table salt or by its chemical formula NaCl, is an ionic compound made of sodium and chlorine ions. All life has evolved to depend on its chemical properties to survive. It has been used by humans for thousands of years, from food preservation to seasoning. Salt's ability to preserve food was a founding contributor to the development of civilization. It helped to eliminate dependence on seasonal availability of food, and made it possible to transport food over large dist

History of salt - Wikipedia

The History of Salt. Salt was in use long before recorded history. Since the dawn of time, animals have instinctively forged trails to natural salt sources to satisfy their need for salt. Early human hunters obtained their salt from eating animal meat. As they turned to agriculture and the diet changed, they found that salt (maybe as sea water) gave vegetables the same salty flavour they were accustomed to with meat.
