Facebook has announced the release of Graph API v9.0 and Marketing API v9.0. These updates included several changes that require developer action in order to ensure that production applications are not interrupted. Additional updates include adjustments to Instagram Follower count metrics.

Facebook Introduces V9 of the Graph and Marketing APIs ...

Understanding the basic syntax of Facebook's Graph API is all you need to get started in Facebook development. Graph API's simple syntax is this: Domain: This will always be <https://graph.facebook.com/>. Object: This can be any object on Facebook. You can choose a user name or id of an object. This can be a user, a Page, an event, a post — any single item on Facebook with an ID should work in this field.

Understanding Graph API — or Facebook Development — Syntax ...

Facebook Application Development with Graph API Cookbook covers both the concepts and

implementations necessary to develop Facebook applications and provides ready to use code for common scenarios faced by a developer while creating these applications.

Facebook Application Development with Graph API Cookbook ...

At F8 2014, we introduced Graph API v2.0, updates to Facebook Login, and a lightweight Login Review process in order to give people more control over the information they share with apps. We gave developers a year to upgrade their apps, so on April 30, 2015, we will start automatically upgrading apps to Graph API v2.0, and removing access to any permissions which have not been approved for use via Login Review .
