A Research and Network Strategy

Summary. Strategic network planning is essential to meet the challenges associated with initiatives like cloud, mobility and IoT while maintaining security and reducing costs. Senior networking leaders can use this research to align network and business goals in a business-relevant networking strategy.

Creating a Business-Relevant Network Strategy

The Creative Commons Global Network recently undertook a community led strategic process to revamp, revitalize, and strengthen the network. This included a research lead by Anna Mazgal, from Poland, with a series of researchers working with her from inside and outside the network. A dedicated team of CC community members designed an entirely new model for collaboration - helping the network grow in a sustainable manner.

Network Strategy - Creative Commons

strategy is to identify and exploit opportunities to build research

capacity and provide support and investment to our staff to enable progression and achieve ambitions for our patients/clients, staff, teams and organisation.

Research, Development and Innovation Strategy

Many researchers believe that carrying out high-quality studies and having a good publication record is important to have a successful career. While these are indeed the main ingredients for success, networking is becoming increasingly important. There is no discrepancy at all that communicating with others can enrich your work in many ways.
