This article applies to the 5th generation Toyota Camry (2002-2006). Connecting your iPhone or MP3 player to the car's radio allows you to access all of your music and listen to it through the factory speakers. This can be done by connecting your music player to the radio's auxiliary input jack via a module known as a device "interface adapter." Installing this module allows you to listen to your favorite audio books and music while on the road, which can only be played through your phone or ...
