Why Art?
Fantagraphics Books

This is a treatise on what makes art art, told in graphic novel form. What is "Art"? It's widely accepted that art serves an important function in society. But the concept falls under such an absurdly large umbrella and can manifest in so many different ways. Art can

be self indulgent, goofy, serious, altruistic, evil, or expressive, or any number of other things. But how can it truly make lasting, positive change? In *Why Art?*, acclaimed graphic novelist Eleanor Davis (*How To Be Happy*) unpacks some of these concepts in ways both critical and positive, in an attempt to illuminate the highest possible potential an artwork might hope to achieve. A work of art unto itself, Davis leavens her exploration with a sense of humor and a thirst for challenging preconceptions of art worth of Magritte, instantly drawing the reader in as a willing accomplice in her quest.

**A Diary of the
Plague Year**

Metropolitan Books

An extraordinary illustrated chronicle of 2020 that captures this indelible year in America in all its tragic, surreal, epic, and (sometimes) comedic intensity. Artist Elise Engler set herself a task five years ago: to illustrate the first headline she heard on her bedside radio every morning. The idea was to create a pictorial record of one year of listening to the news. But when Donald Trump was elected, the headlines turned too wild for her to stop the experiment. Then 2020 happened. Was there ever such a year? Headlines about the death of Kobe Bryant and Donald Trump's

impeachment began to give way to news of a mysterious virus in China, and Engler's pages were quickly filled with the march of COVID-19: schools closing their doors, hospitals overflowing, graveyards full to capacity. Day by day, Engler drew every shocking turn of the year: the police murder of George Floyd and protests around the globe; a war against science and those who preached it; fires consuming California; a vicious election, absurdly contested. Other stories appeared, too: "Harvey Weinstein Sentenced," "Ruth Bader Ginsburg Hospitalized," "China Extends Control over Hong Kong," and—on repeat—"Stock Market Plunges." The result is a powerful visual

record of an unprecedented time, collected in *A Diary of the Plague Year*, which follows the headlines from the first appearance of the coronavirus to the inauguration of President Joe Biden. Made in real time, Engler's vibrant, immediate images recapture what it was like to live through 2020, bringing texture, feeling, and even charm to what we might not remember and what we will never forget.

Cubism and Abstract Art *Routledge*

Originally published in 1936, in this classic account of the

development of abstract art Alfred Barr analyses the many diverse abstract movements which emerged with bewildering rapidity in the early years of the twentieth century, and which had an impact on every major form of art. Barr traces the history of nonrepresentational art from its antecedents in late nineteenth-century painting in France – Seurat and Neo-Impressionism, Gauguin and Synthetism, and Cézanne – through abstract tendencies in Dada and Surrealism. He distinguishes two main trends in abstract art: the geometrical, structural current as it developed in Cubism and later in Constructivism and Mondrian, and the

intuitional, decorative current running from Matisse and Fauvism through Kandinskij and, later, Surrealism. He shows how individual movements influenced one another, and how many artists experimented with more than one style. Barr also discusses the involvement of a number of abstract movements in architecture and the practical arts – the Bauhaus in Germany, de Stijl in Holland, Purism in France, and Suprematism and Constructivism in Russia.

Living with Art

Art & Today *Phaidon Press*

Art & Today is an

innovative and extensive survey of international contemporary art from the 1980s to the present. Over four hundred of the most significant contemporary artists from around the world are represented in this comprehensive overview - some emerging, some mid-career, and others long established. Each of the book's sixteen chapters address recurring and relevant themes as diverse as "Art & Popular Culture," "Art & Its Institutions," and "Art & Globalism," rather than follow a strict chronological, geographical, or stylistic structure. Lively and up-to-date, Art & Today explores an era in which art defies simple

categorization. The result is a surprising and original yet clear and reasoned perspective on contemporary art that breaks from prescribed classifications to offer a survey as expansive as the art it describes. For instance, in the chapter "Art & the Body," one might find performance discussed alongside figurative painting, sculpture and photography alongside video, and North American artists alongside Asian artists. The chapter "Art and Globalism" discusses artists whose nationality, generation, and medium are as diverse as those of Alan Sekula, Michal Rovner, Cildo Meireles, Manuel Ocampo, Chen Zhen, and Andreas Gursky. Internationally renowned art critic and

scholar Eleanor Heartney is respected for her clear language and pragmatic approach to contemporary art. Her straightforward, engaging descriptions and explanations will appeal to both experts and newcomers alike, and will serve as an invaluable resource for years to come.

Keeping the Republic CQ Press
 Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to

think critically about "who gets what, and how" while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Eighth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power – the ability to create and share their own narratives – while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election results and analysis, as well as the impact of recent Supreme Court rulings, shifting demographics, and emerging and

continuing social movements, Keeping the Republic, Eighth Edition is a much-needed resource to help students make sense of politics in America today.
