Perfect for Understanding diseases and disorders, increasing test scores in class, and improving scores on the NCLEX® exam

Hurst Reviews Pathophysiology Review *McGraw Hill Professional*

Ace your Pathophysiology course with the help of nursing review pioneer Marlene Hurst Use Marlene's "no cram, pass with what you already know" system to slash your study time in half Based on Marlene Hurst's popular nursing seminars that train over 30,000 students annually, this innovative review is loaded with the author's time-tested strategies - all designed to help you excel in your Pathophysiology course exams. Pathophysiology Review is unlike any other resource as it explains how to apply critical thinking and test-taking skills rather than how to re-learn course content. Marlene shows you how to "think on your feet" in order to succeed on your Pathophysiology exams. Features: A complete Pathophysiology course toolkit - from the world's most sought after speaker on nursing exam preparation Skill-building questions, answers, and explanations at the end of each chapter Concise, easy-to-remember strategies that cut study time in half Eye-catching full-color format Marlene Moments - Marlene's humorous anecdotes of common student mistakes that offer a light-hearted look at how new nurses learn to succeed What the NCLEX Lady Thinks - tips that reveal the rationale behind various NCLEX pathophysiology questions and how to adjust your strategy accordingly

Hemodynamic Monitoring Made Incredibly Visual! *Lippincott Williams & Wilkins*

Hemodynamic Monitoring Made Incredibly Visual! Second Edition offers an innovative visual approach to mastering the principles and practice of hemodynamic monitoring. Hundreds of detailed and colorful photographs, diagrams, charts, and other visual aids clarify essential cardiopulmonary anatomy and physiology and demonstrate the technical points and clinical applications of

today's pressure monitoring systems, hemodynamic monitoring techniques, and circulatory assist devices. Lighthearted logos present visual mnemonics and reinforce key points. This edition includes new noninvasive cardiac output monitoring techniques and has been updated to current Infusion Nursing Standards of Practice, Centers for Disease Control requirements, and American Association of Critical-Care Nurses Standards of Practice.

Nursing Pharmacology Made Incredibly Easy! *Lippincott Williams & Wilkins*

Nursing Pharmacology Made Incredibly Easy, 3rd Edition, provides the nursing student and practicing nurse with important information about how drugs act and interact in the treatment of disease. This essential pharmacology reference focuses on the mechanisms of drug action; details specific drugs by pharmacologic class; reviews the nursing process related to each drug category for all body systems, plus pain medications, anti-infective drugs, and cancer drugs; and highlights potentially dangerous interactions, including drug-herb interactions. It does all of this in the award-winning, lighthearted Incredibly Easy! style that makes intimidating concepts thoroughly approachable. This completely updated third edition includes the most current NANDA diagnoses and covers Pharmacokinetics, pharmacodynamics, pharmacotherapeutics, interactions, adverse reactions, and nursing process considerations for each drug. If you are still learning, Nursing Pharmacology Made Incredibly Easy will help you master complex subjects in minutes with Quick Quizzes at the end of each chapter to gauge learning and special elements found throughout the text to make it easy to understand and remember key points and information, including: And if that's not enough you can go online to the easiest website to use . . . ever . . . where you'll find valuable resources, including a dosage calculator, pharmacology animations, prototype drug information, medication safety tips, mechanisms of action . . . and Instructor ancillaries, including teaching tips, student activities, test bank, and PowerPoint slides. Your grasp of pharmacology will never be clearer and no text will ever be easier

to use than Nursing Pharmacology Made Incredibly Easy!
