Decluttering. Cutting out the clutter is one of the major recommendations in "10 Do's and Don'ts of Mobile UX Design." Clutter is one of the worst enemies of good design. By cluttering your interface, you overload users with too much information: Every added button, image and icon makes the screen more complicated.

A Comprehensive Guide To Mobile App Design — Smashing Magazine

System design (phase 2) is the first step in the actual ANN design

in which the modeler determines the type of ANN and learning rule that fit the problem. This phase also involves data collection,

data preprocessing to fit the type of ANN used, statistical analysis of data, and partitioning the data into three distinct subsets (training, test, and validation subsets).
