Mastering Coaching

Practical insights for developing high performance

Profile Books

Coaching is one of the most sought-after leadership skills - vital for anyone who wants to develop a team of people who will perform effectively, but are also motivated and relish working together. It's also a dynamic discipline which, in recent years, has developed and grown to embrace theory and practice from a wide range of other disciplines, frameworks and models. Mastering Coaching starts by asking what skills an effective coach must now possess to boost the performance of their coachees. In response, it summarises the most important research in areas such as neuroscience, sports psychology and mindfulness, positive psychology, mastery and goal-setting and offers a clear, simple and practical guide to how this new thinking can help coaches and managers to develop their own coaching practice. Written by Max Landsberg, executive coaching and professional development expert and author of the perennial bestseller *The Tao of Coaching*, Mastering Coaching goes beyond the basics of coaching by providing insights which offer a proven route map to coaching success. Practical and jargon-free, the book will equip readers with the techniques and tools

necessary to take their coaching to the next level.

Logical Reasoning with Diagrams

Oxford University Press

One effect of information technology is the increasing need to present information visually. The trend raises intriguing questions. What is the logical status of reasoning that employs visualization? What are the cognitive advantages and pitfalls of this reasoning? What kinds of tools can be developed to aid in the use of visual representation? This newest volume on the Studies in Logic and Computation series addresses the logical aspects of the visualization of information. The authors of these specially commissioned papers explore the properties of diagrams, charts, and maps, and their use in problem solving and teaching basic reasoning skills. As computers make visual representations more commonplace, it is important for professionals, researchers and students in computer science, philosophy, and logic to develop an understanding of these tools; this book can clarify the relationship between visuals and information.

An Experiment in the Development of Critical Thinking

EPSO CAST Political Affairs / EU Policies

Psychological Testing

The essential guide to using and surviving the most popular recruitment and career development tests *Harriman House Limited*

Both private and public sector organisations, and both employers and recruitment agencies, use psychological selection tests as part of their recruitment processes. Worldwide, and especially in electronic formats, these tests are increasingly used for speeding-up, standardising and professionalising the task of putting the right people in the right jobs. 'Psychological Testing' is an easy-to-follow guide to the most popular selection tests on the market. It takes a broad, international perspective and explores developments in web-based testing services, which have revolutionised the industry. This book seeks to answer all your key questions, including: For employers, recruiting consultancies and agencies: - What are the benefits of using psychological testing for your organisation? - Which kinds of tests are available and how should they be used? - What are the specific applications for each of the tests, and their advantages and disadvantages? - What is good - and bad - practice in test usage in recruitment? - Can these tests also be used for subsequent employee deployment and development, such as creating teams, training needs analysis, and career-planning? For employees and job-

seekers: - What happens if you are required to take a selection test? - What will these tests reveal about you? - What do previous test-takers think about each of these tests? - How can you prepare for the process of testing generally? - How can you overcome test phobia, fear of the unknown and a feeling of intrusion? With detailed information on numerous tests, 'Psychological Testing' is your invaluable handbook, whichever side of the desk you're on.

How To Pass Psychometric Tests

This book gives you information, confidence and plenty of practice

How To Books

In this book, author Andrea Shavick explains all there is to know about psychometric tests: what they are, what they measure, who uses them, why they're used, how they're changing, how to survive them, and even how to avoid them altogether! It includes 35 different, genuine, practice test from SHL Group plc, the world's biggest test publisher. It has 265 questions covering verbal, numerical, abstract and spatial reasoning; mechanical comprehension; fault diagnosis; acuteness and personlaity. This book gives you the information, confidence and practice to pass psychometric tests.

Gower Handbook of People in Project Management *Gower Publishing, Ltd.*

The Gower Handbook of People in Project Management is a unique and rich compilation of over 60 chapters about project management roles and the people who sponsor, manage, work in or are otherwise important to project success. With Lindsay Scott's expert knowledge and experience in this field

and Dennis Lock's contributions and meticulous editing, the Handbook is a complete guide to the various human dimensions involved in projects. It covers everyone involved in projects - the stakeholders - including those funding or sponsoring the project and those involved in its delivery; the people-issues that are specific to different sectors of the organization (public, private and third sector); the organization of people, both real and virtual; the different roles associated with projects; the relationship between people and the project environment; the human behaviours and skills associated with working collaboratively; and the HR issues including all aspects of how to manage talent for projects.

Think Like A Maths Genius

The Art of Calculating in Your Head *Souvenir Press*

How to calculate almost anything in your head. Did you know that it's easier to add and subtract from left to right, rather than the other way round? You can be taught to square a three-digit number in seconds. Learn how to perform lightning calculations in your head, discover methods of incredible memorisation and other feats of mental agility. Learn maths secrets for the real world, from shopping to calculating a restaurant tip and figuring out gambling odds (or how much you've won). Learn how to solve sudoku faster.

How to Pass Advanced Numeracy Tests

Improve Your Scores in Numerical Reasoning and Data Interpretation Psychometric Tests *Kogan Page Publishers*

By testing expert Mike Bryon, *How to Pass Advanced Numeracy Tests* provides a wealth of practice questions and detailed explanations to boost your ability in a range of numeracy assessment tests. With over 500 practice questions and four realistic tests, it is ideal for graduate and management level candidates who want to revise the basics and progress to more difficult questions. Sections on quantitative reasoning, data interpretation and business judgement offer realistic practice to help you rise to the challenge and beat the competition.

501 Challenging Logic and Reasoning Problems *Learning Express Llc*

Nearly everyone must at some time face a standardized test. This guide eases the process by helping readers improve reasoning, critical thinking, judgment, and decision-making skills, and prepare for exams. Like most standardized tests, it features 501 multiple-choice questions along with complete answers. It begins with basic number and letter series questions, and moves on to verbal-classification, artificial-language, and matching-definition items. The last set contains logic problems, logic games, and logical reasoning questions. 501 Challenging Logic and Reasoning Problems can mean the difference between moving ahead or staying behind — in school or at work.

Answering Behavioral Questions in Amazon Interviews

Advice for Candidates at All Levels

Interview Coach Jennifer Scupi has helped hundreds of people get their dream jobs at Amazon (<https://interviewgenie.com/testimonials>). This

new book aggregates all of her best advice into an indispensable guide for behavioral interviewing at Amazon. You'll find step-by-step instructions on how to prepare for and what to expect throughout the Amazon behavioral interviewing process. Learn about the Amazon Leadership Principles and how to formulate answers that show you're a good fit for the culture. Packed with real-world, specific examples of what works (and what doesn't), this book will build your interviewing skills, knowledge, and confidence. In *Answering Behavioral Questions at Amazon Interviews*, you'll find:

- * A walkthrough of the screening and on-site interviews
- * Information about Amazon-specific components of the interviewing process, such as the Loop, the Bar Raiser, and the written exercise
- * A description of the Amazon Leadership Principles and how to speak to them in your answers
- * An explanation of the reasons behind behavioral questions
- * Real sample answers from successful interview candidates
- * Advice on how to talk about your strengths or core competencies
- * Examples of how to add data to your answers
- * Techniques for stalling if you don't know an answer
- * Guidance on what to do after the interview
