India-China escalation can be misused by other players ...

Globalization is a process that encompasses the causes, courses, and consequences of transnational and transcultural integration of human and non-human activities. India had the distinction of being the world's largest economy at the beginning of the Christian era, as it accounted for about 32.9% share of world GDP and about 17% of the world population. The goods produced in India had long been exported to far off destinations across the world; the concept of globalization is hardly new to India
