The number one concern when building your LEGO city in a small space is... the space! One of the design principles of building a small brick city is to maximise space and use it efficiently. Finding the right space for your LEGO city is important for a satisfactory result and for viewing. Of course, you ideally want to find the biggest space that you can afford (or are allowed). The size and shape of the

space you have depends on your home, office or location that you are building your city in.
