1987 Crusader Engine Manual - andreschellen.nl

I can plane at 2000RPM in my new to me 1987 36' Mainship 20K semi-displacement hull which will produce about 16mph. The boat seems to run well there but I've had advice that the engine is working too hard cruising at such a low RPM. The prop is OEM. Original mainship manual suggests a cruising speed of +/- 20 mph with top end at 30mph. I'm interesting in hearing opinions.
