Detailed design. Following FEED is the Detailed Design (Detailed Engineering) phase, which may consist of procurement of materials as well. This phase further elaborates each aspect of the project/product by complete description through solid modeling, drawings as well as specifications.

Engineering design process - Wikipedia

Engineering, procurement, and construction (EPC) contracts are the most common form of contract used to undertake construction works by the private sector on large-scale and complex infrastructure projects. Under an EPC contract a contractor is obliged to deliver a complete facility to a developer who need only turn a key to start operating the facility, hence EPC contracts are sometimes called turnkey construction contracts.

Oil & Gas - Engineering & Procurement

Note that Pre-FEED, FEED, Detailed Engineering, and Procurement are performed/executed by the EPC Contractor. Onsite and Offsite Fabrication. Offsite Fabrication is a process of fabrication and assembly of parts or systems at a location away from the project like a workshop. Offsite fabrication provides a cost-benefit, allowing the assembly of units that would not be able to be fabricated on-site due to cost, tooling, availability of resources, or space restrictions.
