But the Great State,

Brook argues, is an inner-Asian concept brought to China by the Mongols who extended the claim to rule tian xia, without limit, building an empire that was created and maintained by military superiority. What that meant was that “the sovereign of the Great State was endowed with an authority that was potentially universal: those within must submit to his authority, those without must defer to it”.

The film's focus on the darker aspects of Edison's character ultimately serves to ballast, rather than detract from, the myth of the great American inventor. He still figures in The Current War as a flawed genius who pursues invention for its own sake, against the capitalist tides. The film's version of Edison finds an antagonist in financier and banker J.P. Morgan (Matthew Macfadyen), who forces the inventor out of his own company and retitles it General Electricity.
