ISO 27002 serves as a guidance document, providing best-practice guidance on applying the controls listed in Annex A of ISO 27001. It supports, and should be read alongside, ISO 27001. ISO 27001 is the only information security Standard against which organizations can achieve independently audited certification.

ISO 27002: Security Controls - IT Governance USA

ISO/IEC 27002 specifies some 35 control objectives (one per 'security control category') concerning the need to protect the confidentiality, integrity and availability of information. The control objectives are at a fairly high level and, in effect, comprise a generic functional requirements specification for an organization's information security management architecture.
