Domesticated animals and plants are created by human labor to meet specific requirements or whims and are adapted to conditions of continuous care. Domestication, the process of hereditary reorganization of wild animals and plants into domestic and cultivated forms according to the interests of people.

domestication | Definition, Of Plants, Of Animals, & Facts ...

The first evidence of plant domestication comes from wheat found in pre-Pottery Neolithic villages in Southwest Asia. They are dated at 10,500 to 10,100 BC. The Fertile Crescent, Egypt, and India were sites of the earliest planned sowing

and harvesting of plants. Agriculture developed independently in a number of places at different times.

Domestication - Simple English Wikipedia, the free ...

Plants are considered domesticated when their life cycle, behavior, or appearance has been significantly altered as a result of being under artificial selection by humans for multiple generations (see the main article on domestication for more information). Thousands of distinct plant species have been domesticated throughout human history.

List of domesticated plants - Wikipedia

Since only certain plants are being selected and propagated, domestication tends to decrease the genetic diversity of the cultivated varieties of crops (see Figure below). Because consumers prefer uniformity in the marketplace, they “select” for low genetic diversity. But low genetic diversity can be detrimental (see later section).

What is domestication?

The domestication of plants and animals was a major cultural innovation ranked in importance with the conquest of fire, the manufacturing of tools, and the development of verbal language. Charles Darwin recognized the small number of traits that made domestic species different from their wild ancestors.

Domestication - Wikipedia

A wide variety of plants and animals have been independently domesticated at different times and in numerous places. The first agriculture appears to have developed at the closing of the last

Pleistocene glacial period, or Ice Age (about 11,700 years ago).
