A Brief History Of Archaeology

Archaeology is the study of human activity in the past, primarily through the recovery and analysis of the material culture and environmental data that they have left behind, which includes artifacts, architecture, biofacts and cultural landscapes. The development of the field of archaeology has it roots with history and with those who were interested in the past, such as kings and queens who wanted to show past glories of their respective nations. The 5th-century-BCE Greek historian Herodotus w

History of archaeology - Wikipedia

The history of archaeology is a long and checkered one. If there is anything archaeology teaches us, it is to look to the past to learn from our mistakes and, if we can find any, our successes. What we today think of as the modern science of archaeology has its roots in religion and treasure hunting, and it was born out of centuries of curiosity about the past and where we all came from.
