Instructional Objectives And Activities

Instructional Objectives And Activities
Instructional objectives are often either ignored (by both teachers and students) or are, at best, occasionally referred to. However, it can be argued that instructional objectives should guide the teaching and learning process from beginning to end.

Instructional Objectives And Activities

Each general objective should be stated at the proper level of generality: A general instructional objective must be stated in general terms. This provides the teacher more freedom in selecting the method and material for instruction. For example the objectives must be stated as: a. Knows specific facts. b. Understands the principles and relationships.

Instructional Objectives : Purpose and Methods of Stating It

Because instructional objectives specify exactly what is supposed to be learned, they are helpful to the teacher as well as the learner throughout the learning process and are invaluable in the evaluation process. Instructional objectives (also known as behavioral objectives or learning objectives) are basically statements which clearly describe an anticipated learning outcome. When objectives were first coming into their own in education, they almost always began with the phrase: "Upon ...

The steps in aligning learning objectives, instructional activities, and assessments include: Defining the intended learning objectives. Learning objectives should be learner-centric and specify what learners will be able to do on completion of the course.

Aligning Learning Objectives, Instructional Activities ...

Objectives should be specific, concise,

observable and measurable. Each learning objective should target one particular aspect of student performance and be expressed with a single action verb. There is a specific order according to which learners process information in a course. Bloom's taxonomy helps understand this natural order. What Bloom did is describe the levels of student learning, that could help a designer set the right objectives:

Learning Goals and Objectives in Course Design

Activities and Instructional Objectives
Your activities should align with and flow naturally from your objectives. Activities can include discussions, writing papers, doing projects, solving problems, etc.

Alignment of Instructional Objectives

Every activity, every instructional devise, every teaching resource, and every means of evaluation and assessment must be linked to the lesson's objective (s). Writing good objectives will be challenging at first. However, everything in the lesson must revolve around the objectives; thus, you must construct them with care and attention to detail.
