The Beauty of the Beastly takes the pulse of everything from the supple structure of DNA to the erotic ways of barn swallows, queen bees, and the endangered, otherworldly primate called the aye-aye. Few writers have ever covered so many facets of biology so evocatively in one book. Timothy Ferris, author of the acclaimed Coming of Age in the Milky Way, says Angier is “one of the strongest and wittiest science writers in the world today.” “Like Alan Lightman or Lewis Thomas,” writes Nobel laureate David Baltimore, “she draws from science a meaning that few scientists see, and her writing takes on an unusual dimension of artistry.” And Sherwin Nuland, author of How We Die, believes that “Natalie Angier is in the tradition of the great nature writers.” “A gold mine.” —The New York Times “From cockroaches to cheetahs, DNA to elephant dung, Angier gives us intimate and dramatic portraits of nature that readers will find rewarding.” —Publishers Weekly

Feminist City

Claiming Space in a Man-Made World *Verso Books*

Feminist City is an ongoing experiment in living differently, living better, and living more justly in an urban world. We live in the city of men. Our public spaces are not designed for female bodies. There is little consideration for women as mothers, workers or carers. The urban streets often are a place of threats rather than community. Gentrification has made the everyday lives of women even more difficult. What would a metropolis for working women look like? A city of friendships beyond Sex and the City. A transit system that accommodates mothers with strollers on the school run. A public space with enough toilets. A place where women can walk without harassment. In Feminist City, through history, personal experience and popular culture Leslie Kern exposes what is hidden in plain sight: the social inequalities built into our cities, homes, and neighborhoods. Kern offers an alternative vision of the feminist city. Taking on fear, motherhood, friendship, activism, and the joys and perils of being alone, Kern maps the city from new vantage points, laying out an intersectional feminist approach to urban histories and proposes that the city is perhaps also our best hope for shaping a new urban future. It is time to dismantle what we take for granted about cities and to ask how we can build more just, sustainable, and women-friendly cities together.

Intimate Geography

Selected Poems, 1991-2010 *Bloodaxe Books Limited*

Jennifer Maiden's "Intimate Geography" charts territory both personal and political, private and global. Just as 'One needs the private voice / to balance a public terror,' so the public focus sharpens the private perspective. Responding to international conflicts and crises, many of her poems probe moral dilemmas, confronting the existential, ethical problem of evil: why people commit inhuman acts. Watching the progress of a war, day by day, hour by hour, via satellite television, she experiences 'that singular oddness of feeling' of being always 'at a tangent to it somehow albeit / with despair's edgy wit' and there is 'too much passion in the evil'. Two characters keep appearing in her books, George Jeffreys and his companion, Clare Collins. In her novel "Play With Knives" George was a probation officer and Clare a young girl released from prison after murdering her three younger siblings as a nine-year-old. When they reappear in her poems - now working as observers

for human rights organisations - they are deeply involved in an ethical analysis which extends to 9/11, the Iraq War, Afghanistan, the Middle East, Hurricane Katrina and the World Financial Crisis. Always pointedly serious, her poems can also be flamboyant or risque, outrageously witty or daringly provocative. They blur, challenge and cross the boundaries between real and imagined, fact and fiction, inner lives and the world outside us. Politicians and world leaders appear as themselves, including Hillary Clinton (talking to Eleanor Roosevelt), George W. Bush and Madeleine Albright. But at the centre of all these satellite lives, mapping their intimate geography, is Jennifer Maiden herself: questioning, engaging, pouncing and processing to create defiantly humane poetry of impassioned moral witness. Jennifer Maiden is one of Australia's leading poets. "Intimate Geography" is a selection from her four most recent collections, "Acoustic Shadow" (1993), "Mines" (1999), "Friendly Fire" (2005) and "Pirate Rain" (2010).

Seduction

Men, Masculinity and Mediated Intimacy *John Wiley & Sons*

Within the so-called seduction community, the ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development. Though it has been an object of media speculation – and frequent sensationalism – for over a decade, this cultural formation remains poorly understood. In the first book-length study of the industry, Rachel O’Neill takes us into the world of seduction seminars, training events, instructional guidebooks and video tutorials. Pushing past established understandings of ‘pickup artists’ as pathetic, pathological or perverse, she examines what makes seduction so compelling for those drawn to participate in this sphere. Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life, as labour-intensive and profit-orientated modes of sociality consume other forms of being and relating. It is essential reading for students and scholars of gender, sexuality, sociology and cultural studies, as well as anyone who wants to understand the seduction industry’s overarching logics and internal workings.

Saintly Women

Medieval Saints, Modern Women, and Intimate Partner Violence *Routledge*

This ground-breaking volume assesses the contemporary epidemic of intimate partner violence and explores how and why cultural and religious beliefs serve to excuse battering and to work against survivors’ attempts to find safety. Theological interpretations of sacred texts have been used for centuries to justify or minimize violence against women. The authors recover historical and especially medieval narratives whose protagonists endure violence that is framed by religious texts or arguments. The medieval theological themes that redeem battering in saints’ lives—suffering, obedience, ownership and power—continue today in most religious traditions. This insightful book emphasizes Christian history and theology, but the authors signal contributions from interfaith studies to efforts against partner violence. Examining medieval attitudes and themes sharpens the readers’ understanding of contemporary violence against women. Analyzing both historical and contemporary narratives from a religious perspective grounds the unique approach of Nienhuis and Kienzle, one that forges a new path in grappling with partner violence. Medieval and contemporary narratives alike demonstrate that women in abusive relationships feel the burden of religious beliefs that enjoin wives to endure suffering and to maintain stable marriages. Religious leaders have reminded women of wives’ responsibility for obedience to husbands, even in the face of abuse. In some narratives, however, women create safe places for themselves. Moreover, some exemplary communities call upon religious belief to support their opposition to violence. Such models of historical resistance reveal precedents for response through intervention or protection.

It's Up to the Women Hachette UK

"Eleanor Roosevelt never wanted her husband to run for president. When he won, she . . . went on a national tour to crusade on behalf of women. She wrote a regular newspaper column. She became a champion of women's rights and of civil rights. And she decided to write a book." -- Jill Lepore, from the Introduction "Women, whether subtly or vociferously, have always been a tremendous power in the destiny of the world," Eleanor Roosevelt wrote in It's Up to the Women, her book of advice to women of all ages on every aspect of life. Written at the height of the Great Depression, she called on women particularly to do their part -- cutting costs where needed, spending reasonably, and taking personal responsibility for keeping the economy going. Whether it's the recommendation that working women take time for themselves in order to fully enjoy time spent with their families, recipes for cheap but wholesome home-cooked meals, or America's obligation to women as they take a leading role in the new social order, many of the opinions expressed here are as fresh as if they were written today.

Putting Women in Place

Feminist Geographers Make Sense of the World Guilford Press

Why do women and men tend to work in different jobs, in different ways, and in different spaces? Which is more "masculine"--the city or the suburbs? Why is nature often represented in feminine form? This thought-provoking book uses the lens of gender to provide an illuminating new perspective on the geography of everyday life. Domosh and Seager show how notions of maleness and femaleness have influenced our built environment, the locations in which we invest meaning, and the ways we live, work, travel, and explore. From the arrangement of furniture in Victorian homes to the movements of refugees over contemporary borders, the book explores gender patterns and roles across cultures and historical periods. It is lavishly illustrated with line drawings, photographs, and maps.

Infinite Jest Back Bay Books

A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts'

halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, The Atlantic

The Myth of Matriarchal Prehistory

Why an Invented Past Won't Give Women a Future Beacon Press

According to the myth of matriarchal prehistory, men and women lived together peacefully before recorded history. Society was centered around women, with their mysterious life-giving powers, and they were honored as incarnations and priestesses of the Great Goddess. Then a transformation occurred, and men thereafter dominated society. Given the universality of patriarchy in recorded history, this vision is understandably appealing for many women. But does it have any basis in fact? And as a myth, does it work for the good of women? Cynthia Eller traces the emergence of the feminist matriarchal myth, explicates its functions, and examines the evidence for and against a matriarchal prehistory. Finally, she explains why this vision of peaceful, woman-centered prehistory is something feminists should be wary of.

Public Privates

Feminist Geographies of Mediated Spaces U of Nebraska Press

Public Privates focuses on public and private acts and spaces in media to explore the formation of geographies. Situated at the intersections of cultural geography, feminist geography, and media studies, Marcia R. England’s study argues that media both reinforce and subvert traditional notions of public and private spaces through depiction of behaviors and actions within those spheres. Though popular media contribute to the erosion of indistinct edges between spaces, they also frequently reinforce the traditional dualism through particular codings that designate the normed and gendered socio-spatial actions appropriate in each sphere—producing geographical imaginations and behaviors. England applies her immensely readable construction to a diverse and wide-ranging array of media including Buffy the Vampire Slayer, The Fast and the Furious, J-Horror, sitcoms, Deglassi, and reality TV. By examining the gendered representations of public and private spaces in media and how images influence imagined and lived geographies, England shows how popular culture, specifically visual media, transmits ideologies that disintegrate the already blurred boundaries between public and private spaces.

The Death and Life of Aida Hernandez

A Border Story Farrar, Straus and Giroux

What happens when an undocumented teen mother takes on the U.S. immigration system? When Aida Hernandez was born in 1987 in Agua Prieta, Mexico, the nearby U.S. border was little more than a worn-down fence. Eight years later, Aida’s mother took her and her siblings to live in Douglas, Arizona. By then, the border had become one of the most heavily policed sites in America. Undocumented, Aida fought to make her way. She learned English, watched Friends, and, after having a baby at sixteen, dreamed of teaching dance and moving with her son to New York City. But life had other plans. Following a misstep that led to her deportation, Aida found herself in a Mexican city marked by violence, in a country that was not hers. To get back to the United States and reunite with her son, she embarked on a harrowing journey. The daughter of a rebel hero from the mountains of Chihuahua, Aida has a genius for survival—but returning to the United States was just the beginning of her quest. Taking us into detention centers, immigration courts, and the inner lives of Aida and other daring characters, The Death and Life of Aida Hernandez reveals the human consequences of militarizing what was once a more forgiving border. With emotional force and narrative suspense, Aaron Bobrow-Strain brings us into the heart of a violently unequal America. He also shows us that the heroes of our current immigration wars are less likely to be perfect paragons of virtue than complex, flawed human beings who deserve justice and empathy all the same.

The Men in My Country University of Iowa Press

In the early 1990s, at the watershed age of thirty, Marilyn Abildskov decided she needed to start over. She accepted an offer to move from Utah to Matsumoto, Japan, to teach English to junior high school students. “All I knew is that I had to get away and when I stared at my name on the Japanese contract, the squiggles of katakana, my name typed in English sturdily beneath, I liked how it looked. As if it—as if I—were translated, transformed, emerging now as someone new.” The Men in My Country is the story of an American woman living and loving in Japan. Satisfied at first to observe her exotic surroundings, the woman falls in love with the place, with the light, with the curve of a river, with the smell of bonfires during obon, with blue and white porcelain dishes, with pencil boxes, and with small origami birds. Later, struggling for a deeper connection—“I wanted the country under my skin”—Abildskov meets the three men who will be part of her transformation and the one man with whom she will fall deeply in love. A travel memoir offering an artful depiction of a very real place, The Men in My Country also covers the terrain of a complex emotional journey, tracing a geography of the heart, showing how we move to be moved, how in losing ourselves in a foreign place we can become dangerously—and gloriously—undone.

Girls, Women, and Crime

Selected Readings SAGE

Edited by Meda Chesney-Lind and Lisa Pasko, Girls, Women and Crime: Selected Readings, Second Edition is a compilation of journal articles on the female offender written by leading researchers in the field of criminology and women's studies. The individual sections in the book survey four major areas: theories of female criminality, literature on female juvenile delinquents, women as offenders and women in prison. The readings in Girls, Women, and Crime focus on two central questions: How does gender matter in crime and the justice system? What characterizes women's and girls' pathway to crime? In answering these key questions, the contributors reveal the complex worlds females in the criminal justice system must often negotiate-worlds that are frequently riddled with violence, victimization, discrimination, and economic marginalization.

Room to Fly

A Transcultural Memoir Univ of California Press

Room to Fly is a unique journal—or ongoing memoir—by a woman who traces the elusive contours of cultural perceptions East and West, welcoming us into the intimate geography of individual lives. The book takes its shape and direction from a tenet of Japanese Sumi painting: If you depict a bird, give it space to fly. Padma Hejmadi explores the human spaces surrounding language, landscape, literacy and illiteracy, music, dance, legend, the cadence of ancient craft, and the ceaselessly unfolding layers of family relationships. Part autobiography, part lively meditation, Room to Fly represents a new genre with an old diction. Hejmadi's spare, luminous prose combines lyricism with humor and intellectual rigor, drawing us from Bombay to the Bahamas, from Japan to New England, the Greek Isles to New Mexico.

Orientalism *Vintage*

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.

An Intimate Economy

Enslaved Women, Work, and America's Domestic Slave Trade *UNC Press Books*

Alexandra Finley adds crucial new dimensions to the boisterous debate over the relationship between slavery and capitalism by placing women's labor at the center of the antebellum slave trade, focusing particularly on slave traders' ability to profit from enslaved women's domestic, reproductive, and sexual labor. The slave market infiltrated every aspect of southern society, including the most personal spaces of the household, the body, and the self. Finley shows how women's work was necessary to the functioning of the slave trade, and thus to the spread of slavery to the Lower South, the expansion of cotton production, and the profits accompanying both of these markets. Through the personal histories of four enslaved women, Finley explores the intangible

costs of the slave market, moving beyond ledgers, bills of sales, and statements of profit and loss to consider the often incalculable but nevertheless invaluable place of women's emotional, sexual, and domestic labor in the economy. The details of these women's lives reveal the complex intersections of economy, race, and family at the heart of antebellum society.
