Brand Metrics Gauging And Linking

Abstract. For all the discussion that revolves around the importance of the brand as a driver of business value and success, surprisingly few businesses have instituted a systematic programme of analytics that allows them to gauge their brands' performance, adjust brand strategies and, more importantly, link them to business performance measures. This is as true for business-to-business (B2B) as it is for business-to-consumer (B2C) marketing, even though B2B organisations have a critical ...

Brand Metrics Gauging And Linking Brands With Business|

Brand engagement is a valuable interaction between a customer and a brand. It is commonly used as a metric that measures interactions between customers and your products, services, environments and communications. Such metrics differ widely from one organization to the next as the definition of "valuable interaction" is business specific.

11 Types of Brand Engagement - Simplicable

Defining your metrics for this variable will be a journey of discovery, with a bit of in-survey detective work to establish the links between product feature and quality perception. Some areas to start with include. Performance; How the experience measures up to specifications/marketing; Reliability; Appearance and finish; Customer Brand Loyalty
