THE SECOND WORLD WAR ANTONY BEEVOR RECAP COLLECTION: UNLOCK THE SIGNIFICANCE IN BITE-SIZED CHUNKS

Invite to our fascinating publication recap collection. We are delighted to present you to the world of The Second World War Antony Beevor recaps and

just how they can boost your analysis experience. As serious viewers ourselves, we comprehend the worth of diving right into the heart of every story and discovering its essence in bite-sized portions.

The Second World War Antony Beevor book summary collection supplies simply that - a succinct and useful recap of the key points and themes of a book. In today's fast-paced globe, we know that time is priceless, and our recaps are

developed to save you time by offering a fast overview of The Second World War Antony Beevor's material and understandings.

Our group of specialist writers very carefully curates our publication recap of The Second World War Antony Beevor collection to make certain that we offer you with high-grade summaries that record the significance of each publication. Whether you are aiming to explore brand-new genres, discover new writers, or merely obtain much deeper insights into your favorite publications, our collection has something for everybody.

Join us today and unlock the world of The Second World War Antony Beevor recaps. Discover the benefits of condensing intricate concepts right into

easy and easy-to-understand language. Our book summaries are a great way to expand your knowledge and widen your perspectives without needing to invest hours of your time.

Stay tuned as we discover the principle of The Second World War Antony Beevor, review their benefits, and supply suggestions on how to create effective summaries. With our help, you'll find the best publication for your passions and unlock a globe of knowledge.

EXPLORING PUBLICATION RECAPS OF THE SECOND WORLD WAR ANTONY BEEVOR

At our book summary collection, we securely believe in the power of exploring The Second World War Antony

Beevor. Not just can this open brand-new expertise and insights, however it can also save visitors time and aid them determine which publications to invest their time in. Let's study the idea of The Second World War Antony Beevor recaps and their benefits.

What are book summaries?

Schedule recaps are condensed versions of a book's key points and themes. They provide a quick overview of The Second World War Antony Beevor's essence in bite-sized chunks. They can range from a couple of paragraphs to a couple of web pages.

Why are they valuable?

The Second World War Antony Beevor recaps are important because they allow visitors to obtain a much deeper understanding of a book's key points and motifs without needing to review the full publication. They are specifically helpful for busy people who wish to remain enlightened but might not have the time to read an entire book of The Second World War Antony Beevor.

Just how can

they benefit The Second World War Antony Beevor readers?

Book summaries can benefit readers by saving time, giving a practical summary of The Second World War Antony Beevor's essence, and helping readers establish which books deserve investing more time in. They enable readers to rapidly and easily gain understandings and expertise without having to devote to reading the full publication of The Second World War Antony Beevor.

- Saves time
- Supplies a fast introduction
- Helps The Second World War Antony Beevor visitors choose which books to spend more time in

Remain tuned for our following section where we will dive deeper into the advantages of The Second World War Antony Beevor.

ADVANTAGES OF THE SECOND WORLD WAR ANTONY BEEVOR BOOK RECAPS

At our publication summary collection, our company believe in the countless benefits of checking out The Second World War Antony Beevor recaps. Below are a couple of crucial benefits:

- **Time-saving:** With our active routines, it can be testing to discover time to check out every book we want. Our publication recaps use a quick summary of the most important factors without requiring to invest numerous hours in reading The Second World War Antony Beevor entire book.
- **Quick review of The Second World War Antony Beevor:** If there is a book you want, yet you're uncertain if it's ideal for you, our publication summaries offer a peek into the writer's essences and composing style prior to purchasing the complete book.
- **Improved understanding in The Second World War Antony**

Beevor: For those who have actually reviewed the whole publication, our publication recaps offer an opportunity to revitalize your memory and rediscover the key points and motifs.

In general, book summaries of The Second World War Antony Beevor offer a valuable device to boost your analysis experience and optimize your effort and time.

EXACTLY HOW TO COMPOSE A BOOK SUMMARY OF THE SECOND WORLD WAR ANTONY BEEVOR

Composing a book summary may feel like a complicated task, but it can actually be a fun and fulfilling experience. Here are some crucial

elements to keep in mind when composing your book summary:

1. **Concentrate on the essence:**

The objective of a book recap is to catch the significance of The Second World War Antony Beevor in a concise and compelling means. Prevent getting captured up in the information and instead focus on the bottom lines and motifs that the writer is attempting to convey.

2. **Maintain it quick:** The Second World War Antony Beevor summary is indicated to be a quick review, so keep it concise. Adhere to the most crucial information and stay clear of going into excessive deepness.

3. **Consist of the primary**

characters: Ensure to consist of a short description of the major characters, including their names and any type of defining qualities or features.

4. **Highlight the main themes:**

Identify the central themes of The Second World War Antony Beevor and highlight them in your summary. This will offer viewers a far better concept of what the book is about and what they can expect to gain from it.

By maintaining these key elements in mind, you can compose an effective and engaging book summary that records the essence of The Second World War Antony Beevor book and leaves readers

wanting more.

FINDING THE RIGHT THE SECOND WORLD WAR ANTONY BEEVOR BOOK RECAPS

Are you battling to find the appropriate The Second World War Antony Beevor summaries for your interests? Do not fret, we have actually obtained you covered. Right here are some ideas on locating high-grade book recaps:

1. Online Operating

systems

One of the easiest ways to locate The Second World War Antony Beevor summaries is via online systems. Web sites like Blinkist, getAbstract, and Sumizeit provide a variety of recaps for different categories and styles. You can likewise take a look at Amazon Kindle's "Brief Reads" area for quick, easy-to-digest recaps.

2. Schedule Review Websites

Reserve testimonial internet sites like Goodreads and BookPage usually include summaries together with their reviews.

They can offer a deeper understanding of The Second World War Antony Beevor story and styles while also providing insight right into the viewers's experience. You can likewise take a look at their "recommended" web page to find new summaries.

3. Curated Collections

For readers who like a much more tailored touch, curated collections are a great choice. These collections are frequently created by industry experts or fanatics and give a list of must-read recaps for different styles. You can locate them on blog sites, podcasts, and even social media sites teams.

With these ideas, you can find the appropriate The Second World War Antony Beevor publication summaries for your rate of interests and choices. Pleased analysis!

The Second World War *Back Bay Books*

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included Stalingrad and The Fall of Berlin 1945. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest

and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military

historian of the first rank.

The Second World War *Hachette UK*

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included *Stalingrad* and *The Fall of Berlin 1945*. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor

describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

The Second World War *Hachette UK*

A magisterial, single-volume history of the greatest conflict the world has ever known by our foremost military historian.

***** The Second World War began in August 1939 on the edge of Manchuria and ended there exactly six years later with the Soviet invasion of northern China. The war in Europe appeared completely divorced from the war in the Pacific and China, and yet events on opposite sides of the world had profound effects. Using the most up-to-date scholarship and research, Beevor assembles the whole picture in a gripping narrative that extends from the North Atlantic to the South Pacific and from the snowbound steppe to the North African Desert. Although filling the broadest canvas on a heroic scale, Beevor's *The Second World War* never loses sight of the fate of the ordinary soldiers and civilians whose lives were crushed by the titanic forces unleashed

in the most terrible war in history.

Arnhem: The Battle for the Bridges, 1944 *Lulu Press, Inc*

On 17 September 1944, General Kurt Student, the founder of Nazi Germany's parachute forces, heard the growing roar of aero engines. He went out on to his balcony above the flat landscape of southern Holland to watch the vast air armada of Dakotas and gliders, carrying the British 1st Airborne and the American 101st and 82nd Airborne Divisions. He gazed up in envy at the greatest demonstration of paratroop power ever seen. Operation Market Garden, the plan to end the war by capturing the bridges leading to the Lower Rhine and beyond, was a bold concept: the Americans thought it

unusually bold for Field Marshal Montgomery. But the cost of failure was horrendous, above all for the Dutch who risked everything to help. German reprisals were cruel and lasted until the end of the war.

Ardennes 1944

Hitler's Last Gamble *Viking*

Jacket subtitle: The Battle of the Bulge.

Churchill's Empire

The World That Made Him and the World He Made *Henry Holt and Company*

The imperial aspect of Churchill's career tends to be airbrushed out, while the battles against Nazism are heavily

foregrounded. A charmer and a bully, Winston Churchill was driven by a belief that the English were a superior race, whose goals went beyond individual interests to offer an enduring good to the entire world. No better example exists than Churchill's resolve to stand alone against a more powerful Hitler in 1940 while the world's democracies fell to their knees. But there is also the Churchill who frequently inveighed against human rights, nationalism, and constitutional progress—the imperialist who could celebrate racism and believed India was unsuited to democracy. Drawing on newly released documents and an uncanny ability to separate the facts from the overblown reputation (by mid-career Churchill had become a global brand), Richard Toye provides the

first comprehensive analysis of Churchill's relationship with the empire. Instead of locating Churchill's position on a simple left/right spectrum, Toye demonstrates how the statesman evolved and challenges the reader to understand his need to reconcile the demands of conscience with those of political conformity.

Stalingrad

The Fateful Siege: 1942-1943 *Penguin*

The Battle of Stalingrad was not only the psychological turning point of World War II: it also changed the face of modern warfare. From Antony Beevor, the internationally bestselling author of D-Day and The Battle of Arnhem. In August

1942, Hitler's huge Sixth Army reached the city that bore Stalin's name. In the five-month siege that followed, the Russians fought to hold Stalingrad at any cost; then, in an astonishing reversal, encircled and trapped their Nazi enemy. This battle for the ruins of a city cost more than a million lives. Stalingrad conveys the experience of soldiers on both sides, fighting in inhuman conditions, and of civilians trapped on an urban battlefield. Antony Beevor has interviewed survivors and discovered completely new material in a wide range of German and Soviet archives, including prisoner interrogations and reports of desertions and executions. As a story of cruelty, courage, and human suffering, Stalingrad is unprecedented and unforgettable. Historians and reviewers

worldwide have hailed Antony Beevor's magisterial Stalingrad as the definitive account of World War II's most harrowing battle.

World War II Day by Day

The Greatest Military Conflict Exactly as it Happened *Chartwell Books*

The hardcover reference titles in the Day by Day series examine the evolution of wars in a chronological timeline, from the first skirmish to the last battle and everything in between. These books are a historical companion to each major war in the nineteenth and twentieth century. The fate of soldiers, battalions, armies, can change in the blink of an eye—with this comprehensive book

readers can follow the conflicting sides in their strategy, weaponry, and policies. *World War II Day by Day* is a chronological history of the second World War from the beginning of the Polish campaign in September 1939 to the surrender of Japan in Tokyo Bay on September 2, 1945. All the major war theaters are covered, as is the fighting in the air and the sea. The dated entries, which are written as though they have just happened, thereby recapturing the immediacy of the war, analyze the major battles and campaigns of the war, such as Stalingrad, Kursk, Midway, D-Day, Iwo Jima, Okinawa and Berlin. Accompanying the entries in *World War II Day by Day* are longer features on various aspects of the conflict, such as the war's decisive weapons, strategic decisions, and

policies. There are also biographical entries on the individuals who shaped and prosecuted the war in both Europe and the Pacific theaters: leaders such as Chamberlain, Stalin, Zhukov, MacArthur, Hitler, Manstein, and Eisenhower.

The Bomb

A Life *Random House*

Before the Bomb, there were simply 'bombs', lower case. But it was the twentieth century, one hundred years of almost incredible scientific progress, that saw the birth of the Bomb, the human race's most powerful and most destructive discovery. In this magisterial and enthralling account, Gerard DeGroot gives us the life story of the Bomb, from its birth in the turn-of-the-century

physics labs of Europe to a childhood in the New Mexico desert of the 1940s, from adolescence and early adulthood in Nagasaki and Bikini, Australia and Siberia to unsettling maturity in test sites and missile silos all over the globe. By turns horrific, awe-inspiring and blackly comic, *The Bomb* is never less than compelling.

Stalin's War

A New History of World War II *Basic Books*

A prize-winning historian reveals how Stalin—not Hitler—was the animating force of World War II in this major new history. World War II endures in the popular imagination as a heroic struggle between good and evil, with villainous

Hitler driving its events. But Hitler was not in power when the conflict erupted in Asia—and he was certainly dead before it ended. His armies did not fight in multiple theaters, his empire did not span the Eurasian continent, and he did not inherit any of the spoils of war. That central role belonged to Joseph Stalin. The Second World War was not Hitler's war; it was Stalin's war. Drawing on ambitious new research in Soviet, European, and US archives, Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east. Hitler's genocidal ambition may have helped unleash Armageddon, but as McMeekin shows, the war which emerged in Europe in September 1939 was the one Stalin wanted, not Hitler. So, too, did the Pacific war of 1941–1945

fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the "Anglo-Saxon" capitalist powers he viewed as his ultimate adversary. McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain's self-defeating strategic moves, beginning with Lend-Lease aid, as American and British supply boards agreed almost blindly to every Soviet demand. Stalin's war machine, McMeekin shows, was substantially reliant on American matériel from warplanes, tanks, trucks, jeeps, motorcycles, fuel, ammunition, and explosives, to industrial inputs and technology transfer, to the foodstuffs which fed the Red Army. This unreciprocated American generosity gave Stalin's armies the mobile striking

power to conquer most of Eurasia, from Berlin to Beijing, for Communism. A groundbreaking reassessment of the Second World War, Stalin's War is essential reading for anyone looking to understand the current world order.

The Mystery of Olga Chekhova *Penguin*

In his latest work, Antony Beevor—bestselling author of Stalingrad and The Battle of Arnhem and one of our most respected historians of World War II—brings us the true, little-known story of a family torn apart by revolution and war. Olga Chekhova, a stunning Russian beauty, was the niece of playwright Anton Chekhov and a famous Nazi-era film actress who was closely associated with Hitler. After fleeing Bolshevik

Moscow for Berlin in 1920, she was recruited by her composer brother Lev to become a Soviet spy—a career she spent her entire postwar life denying. The riveting story of how Olga and her family survived the Russian Revolution, the rise of Hitler, the Stalinist Terror, and the Second World War becomes, in Beevor's hands, a breathtaking tale of survival in a merciless age.

Paris After the Liberation 1944-1949

Revised Edition *Penguin*

"A rich and intriguing story which the authors disentangle with great skill."--
Sunday Telegraph
From Antony Beevor, the internationally bestselling author of D-Day and The Battle of Arnhem In this brilliant synthesis of social, political, and

cultural history, Antony Beevor and Artemis Cooper present a vivid and compelling portrayal of the City of Lights after its liberation. Paris became the diplomatic battleground in the opening stages of the Cold War. Against this volatile political backdrop, every aspect of life is portrayed: scores were settled in a rough and uneven justice, black marketers grew rich on the misery of the population, and a growing number of intellectual luminaries and artists including Hemingway, Beckett, Camus, Sartre, de Beauvoir, Cocteau, and Picasso contributed new ideas and a renewed vitality to this extraordinary moment in time.

The Routledge Atlas of the Second World War *Routledge*

In The Routledge Atlas of the Second World War, Martin Gilbert graphically charts the war's political, military, economic and social history through 247 maps. Each map has been specially drawn for this atlas, many of them covering topics that have not previously been mapped. The atlas covers all the major events from the German invasion of Poland in September 1939 to the defeat of Japan in August 1945, including the Blitz, the Fall of France, Pearl Harbor, the naval Battles of the Atlantic, the Indian Ocean and the Pacific, Dieppe, Stalingrad, Midway, the Normandy Landings, the bombing of Warsaw, London, Coventry, Hamburg, Dresden, Tokyo, Hiroshima and Nagasaki, the Burma Railway, concentration camps and slave labour camps, and prisoner-of-

war camps in Europe, the Americas and the Far East. Focusing on the human - and inhuman - aspects of the war, The Routledge Atlas of the Second World War includes examination of: Military, naval and air campaigns on all the war fronts The war on land, at sea and in the air The economic and social aspects of the war The global nature of the war, in armed combat and in suffering The impact of the war on civilians, both under occupation, and as deportees and refugees The aftermath of the war: the post-war political and national boundaries; war graves, and the human cost of the war on every continent.

Crete

The Battle and the Resistance

Hachette UK

Acclaimed historian and best-selling author Antony Beevor vividly brings to life the epic struggles that took place in Second World War Crete - reissued with a new introduction. 'The best book we have got on Crete' Observer The Germans expected their airborne attack on Crete in 1941 - a unique event in the history of warfare - to be a textbook victory based on tactical surprise. They had no idea that the British, using Ultra intercepts, knew their plans and had laid a carefully-planned trap. It should have been the first German defeat of the war, but a fatal misunderstanding turned the battle round. Nor did the conflict end there. Ferocious Cretan freedom fighters mounted a heroic resistance, aided by a dramatic cast of British officers from

Special Operations Executive.

The Fall of Berlin 1945 *Penguin*

"A tale drenched in drama and blood, heroism and cowardice, loyalty and betrayal."—Jonathan Yardley, The Washington Post The Red Army had much to avenge when it finally reached the frontiers of the Third Reich in January 1945. Frenzied by their terrible experiences with Wehrmacht and SS brutality, they wreaked havoc—tanks crushing refugee columns, mass rape, pillage, and unimaginable destruction. Hundreds of thousands of women and children froze to death or were massacred; more than seven million fled westward from the fury of the Red Army. It was the most terrifying example of fire and sword ever known. Antony Beevor,

renowned author of *D-Day and The Battle of Arnhem*, has reconstructed the experiences of those millions caught up in the nightmare of the Third Reich's final collapse. *The Fall of Berlin* is a terrible story of pride, stupidity, fanaticism, revenge, and savagery, yet it is also one of astonishing endurance, self-sacrifice, and survival against all odds.

German Aircraft of the Second World War

Including Helicopters and Missiles *Naval Inst Press*

Looks at the development of the German aircraft industry and the history of German military aviation, from 1919 to the end of the Second World War.

Inferno

The World at War, 1939-1945 *Vintage*

From one of our finest military historians, a monumental work that shows us at once the truly global reach of World War II and its deeply personal consequences. World War II involved tens of millions of soldiers and cost sixty million lives—an average of twenty-seven thousand a day. For thirty-five years, Max Hastings has researched and written about different aspects of the war. Now, for the first time, he gives us a magnificent, single-volume history of the entire war. Through his strikingly detailed stories of everyday people—of soldiers, sailors and airmen; British housewives and Indian peasants; SS killers and the citizens of Leningrad,

some of whom resorted to cannibalism during the two-year siege; Japanese suicide pilots and American carrier crews—Hastings provides a singularly intimate portrait of the world at war. He simultaneously traces the major developments—Hitler’s refusal to retreat from the Soviet Union until it was too late; Stalin’s ruthlessness in using his greater population to wear down the German army; Churchill’s leadership in the dark days of 1940 and 1941; Roosevelt’s steady hand before and after the United States entered the war—and puts them in real human context. Hastings also illuminates some of the darker and less explored regions under the war’s penumbra, including the conflict between the Soviet Union and Finland, during which the Finns fiercely

and surprisingly resisted Stalin’s invading Red Army; and the Bengal famine in 1943 and 1944, when at least one million people died in what turned out to be, in Nehru’s words, “the final epitaph of British rule” in India. Remarkably informed and wide-ranging, *Inferno* is both elegantly written and cogently argued. Above all, it is a new and essential understanding of one of the greatest and bloodiest events of the twentieth century.

D-Day

The Battle for Normandy *Penguin UK*

The Normandy Landings that took place on D-Day involved by far the largest invasion fleet ever known. The scale of the undertaking was simply awesome.

What followed them was some of the most cunning and ferocious fighting of the war, at times as savage as anything seen on the Eastern Front. As casualties mounted, so too did the tensions between the principal commanders on both sides. Meanwhile, French civilians caught in the middle of these battlefields or under Allied bombing endured terrible suffering. Even the joys of Liberation had their darker side. The war in northern France marked not just a generation but the whole of the post-war world, profoundly influencing relations between America and Europe. Making use of overlooked and new material from over thirty archives in half a dozen countries, *D-Day* is the most vivid and well-researched account yet of the battle of Normandy. As with Stalingrad and Berlin,

Antony Beevor's gripping narrative conveys the true experience of war.

A World at Arms

A Global History of World War II
Cambridge University Press

Provides an overview of the entire war from a global perspective, looking at diplomatic actions, military strategy, economic developments, and pressures from the home front

The Second World War

A Complete History *Rosetta Books*

"Mr. Gilbert brings the strongest possible credentials to his history of World War II, and the result is a magisterial work" (The New York Times). In the hands of

master historian Martin Gilbert, the complex and compelling story of the Second World War comes to life. This narrative captures the perspectives of leading politicians and war commanders, journalists, civilians, and ordinary soldiers, offering gripping eyewitness accounts of heroism, defeat, suffering, and triumph. This is one of the first historical studies of World War II that describes the Holocaust as an integral part of the war. It also covers maneuvers, strategies, and leaders operating in European, Asian, and Pacific theatres. In addition, this book brings in survivor testimonies of occupation, survival behind enemy lines, and the experience of minority groups such as the Roma in Europe, to offer a comprehensive account of the war's

impact on individuals on both sides. This is a sweeping narrative of one of the most deadly wars in history, which took almost forty million lives, and irrevocably changed countless more. "Gilbert's flowing narrative is spiced with anecdotal details culled from diaries, memoirs, and official documents. He is especially skillful at interweaving summaries of military strategy with vignettes of civilian suffering." —Newsweek "[A] masterful account of history's most destructive conflict." —Publishers Weekly

A Writer at War

Vasily Grossman with the Red Army

Vintage Canada

Edited and translated from the Russian

by Antony Beevor and Luba Vinogradova Knopf Canada is proud to present a masterpiece of the Second World War, never before published in English, from one of the great Russian writers of the 20th century – a vivid eyewitness account of the Eastern Front and “the ruthless truth of war.” When the Germans invaded Russia in 1941, Vasily Grossman became a special correspondent for the Red Star, the Red Army’s newspaper. *A Writer at War* – based on the notebooks in which Grossman gathered raw material for his articles – depicts the crushing conditions on the Eastern Front, and the lives and deaths of soldiers and civilians alike. It also includes some of the earliest reportage on the Holocaust. In the three years he spent on assignment,

Grossman witnessed some of the most savage fighting of the war: the appalling defeats of the Red Army, the brutal street fighting in Stalingrad, the Battle of Kursk (the largest tank engagement in history), the defense of Moscow, the battles in Ukraine and much more. Historian Antony Beevor has taken Grossman’s raw notebooks, and fashioned them into a narrative providing one of the most even-handed descriptions – at once unflinching and sensitive – we have ever had of what he called “the ruthless truth of war.”

World War II Day by Day *Zenith Press*

There have been many straightforward narrative histories of World War II, but few books have attempted to take a strictly chronological, approach to the

subject. This allows the reader to see at a glance the key battles on land, at sea, and in the air, the strategic moves, and the political events that occurred across the globe during a particular month, thus providing a snapshot overview of the state of the conflict at one particular moment. The book covers the years from 1939 to 1945, and each year will begin with a brief introduction that offers the reader an overview of the year's events, thereby placing what follows in context.

The Meaning of the Second World War *Verso Books*

The very scale of the 1939–45 war has often tempted historians to study particular campaigns at the expense of the wider panorama. In this readable

and richly detailed history of the conflict, the Belgian scholar Ernest Mandel (author of the acclaimed *Late Capitalism*) outlines his view that the war was in fact a combination of several distinct struggles and a battle between rival imperialisms for world hegemony. In concise chapters, Mandel examines the role played by technology, science, logistics, weapons and propaganda. Throughout, he weaves a consideration of the military strategy of the opposing states into his analytical narrative of the war and its results.

The Correspondents

Six Women Writers on the Front Lines of World War II *Doubleday*

The riveting, untold history of a group of

heroic women reporters who revolutionized the narrative of World War II—from Martha Gellhorn, who out-scooped her husband, Ernest Hemingway, to Lee Miller, a Vogue cover model turned war correspondent. "Thrilling from the first page to the last." —Mary Gabriel, author of *Ninth Street Women* "Just as women are so often written out of war, so it seems are the female correspondents. Mackrell corrects this omission admirably with stories of six of the best...Mackrell has done us all a great service by assembling their own fascinating stories." —New York Times Book Review

On the front lines of the Second World War, a contingent of female journalists were bravely waging their own battle. Barred from combat zones and faced

with entrenched prejudice and bureaucratic restrictions, these women were forced to fight for the right to work on equal terms with men. The *Correspondents* follows six remarkable women as their lives and careers intertwined: Martha Gellhorn, who got the scoop on Ernest Hemingway on D-Day by traveling to Normandy as a stowaway on a Red Cross ship; Lee Miller, who went from being a Vogue cover model to the magazine's official war correspondent; Sigrid Schultz, who hid her Jewish identity and risked her life by reporting on the Nazi regime; Virginia Cowles, a "society girl columnist" turned combat reporter; Clare Hollingworth, the first English journalist to break the news of World War II; and Helen Kirkpatrick, the first woman to report from an Allied

war zone with equal privileges to men. From chasing down sources and narrowly dodging gunfire to conducting tumultuous love affairs and socializing with luminaries like Eleanor Roosevelt, Picasso, and Man Ray, these six women are captured in all their complexity. With her gripping, intimate, and nuanced portrait, Judith Mackrell celebrates these courageous reporters who risked their lives for the scoop.

Leadership in War

Essential Lessons from Those Who Made History *Penguin*

A comparison of nine leaders who led their nations through the greatest wars the world has ever seen and whose unique strengths—and

weaknesses—shaped the course of human history, from the bestselling, award-winning author of *Churchill*, *Napoleon*, and *The Last King of America* “Has the enjoyable feel of a lively dinner table conversation with an opinionated guest.” —The New York Times Book Review Taking us from the French Revolution to the Cold War, Andrew Roberts presents a bracingly honest and deeply insightful look at nine major figures in modern history: Napoleon Bonaparte, Horatio Nelson, Winston Churchill, Adolf Hitler, Joseph Stalin, George C. Marshall, Charles de Gaulle, Dwight D. Eisenhower, and Margaret Thatcher. Each of these leaders fundamentally shaped the outcome of the war in which their nation was embroiled. Is war leadership unique, or

did these leaders have something in common, traits and techniques that transcend time and place and can be applied to the essential nature of conflict? Meticulously researched and compellingly written, *Leadership in War* presents readers with fresh, complex portraits of leaders who approached war with different tactics and weapons, but with the common goal of success in the face of battle. Both inspiring and cautionary, these portraits offer important lessons on leadership in times of struggle, unease, and discord. With his trademark verve and incisive observation, Roberts reveals the qualities that doom even the most promising leaders to failure, as well as the traits that lead to victory.

BALL OF FIRE **The Fifth Indian Division in the Second World War.**

Naval & Military Press

The Indian 5th Infantry Division was a WW2 infantry division in the Indian Army. It is notable as one of the few Allied divisions to fight the Italians, Germans and Japanese. The divisional sign, of a red circle on a black background which gave the division its nickname, was selected after the first selection of a boar's head was deemed offensive to Moslem soldiers and every other animal suggested had already been selected by other newly raised divisions. Between 1940 and 1941 the 5th Division was involved in the campaign in East Africa. After periods in Egypt, Cyprus and Syria, by 1942 it was involved in the fighting in the Western

Desert of North Africa and the withdrawal of the Allied troops to El Alamein. By late 1943 the 5th Division had shipped to India and took part in the campaign in Burma initially deployed to the Arakan front. After the Japanese had been defeated in the Battle of the Admin Box the division was airlifted north to take part in the Battle of Imphal and the Battle of Kohima. Thereafter, the division was almost constantly involved in the advance through central Burma until fighting ended with the Japanese surrender in August 1945

December 1941

Twelve Days that Began a World War *Yale University Press*

An account of the dramatic turning point

in World War II that marked “the dawn of American might and the struggle for supremacy in Southeast Asia” (Times Higher Education). In far-flung locations around the globe, an unparalleled sequence of international events took place between December 1 and December 12, 1941. In this riveting book, historian Evan Mawdsley explores how the story unfolded . . . On Monday, December 1, 1941, the Japanese government made its final decision to attack Britain and America. In the following days, the Red Army launched a counterthrust in Moscow while the Japanese bombed Pearl Harbor and invaded Malaya. By December 12, Hitler had declared war on the United States, the collapse of British forces in Malaya had begun, and Hitler had secretly laid

out his policy of genocide. Churchill was leaving London to meet Roosevelt as Anthony Eden arrived in Russia to discuss the postwar world with Stalin. Combined, these occurrences brought about a “new war,” as Churchill put it, with Japan and America deeply involved and Russia resurgent. This book, a truly international history, examines the momentous happenings of December 1941 from a variety of perspectives. It shows that their significance is clearly understood only when they are viewed together. “Marks the change from a continental war into a global war in an original and interesting way.”—The Sunday Telegraph Seven (Books of the Year) “Suspenseful . . . Mawdsley embarks on the action from the first day and never lets up in this crisp,

chronological study . . . A rigorous, sharp survey of this decisive moment in the war.”—Kirkus Reviews

The Spectre of War

International Communism and the Origins of World War II *Princeton University Press*

"This book is a global history of the Interwar period, which posits a new history for the origins of the Second World War. Jonathan Haslam argues that it was not only the failures of the treaties that ended the First World War that led to the Second, as has traditionally been supposed. Rather, fear of international communism hampered the Great Powers and prevented the necessary diplomatic steps to contain the aggression of

Germany and Japan to a much greater extent and much earlier in history than previous scholarship has recognized. Haslam looks at newly discovered and neglected archival materials around the world to show how communism as a social and political force shaped the politics in countries as diverse as Britain, Spain, France, as well as the U.S., China, and European colonies in the 1920s and 1930s. Both Communism and fear of communism were essential components of the period's political and class divides within Europe, the Weimar crisis, the Great Depression, and colonial conflicts around the world. These social factors formed the essential background to the grand political dramas in each country, explaining for example why France seemed timid, Britain appeased, and the

U.S. self-isolated. Haslam expertly brings together domestic and international politics as well as the European and Asian theaters to shed new light on this pivotal period of history in new ways. Ultimately, he shows that international communism was much a more significant factor in the diplomatic failures that permitted Japan's increased aggression and Hitler's rise to power than was previously thought"--

The Story of World War II

Revised, expanded, and updated from the original *t Simon and Schuster*
Drawing on previously unpublished eyewitness accounts, prizewinning historian Donald L. Miller has written what critics are calling one of the most

powerful accounts of warfare ever published. Here are the horror and heroism of World War II in the words of the men who fought it, the journalists who covered it, and the civilians who were caught in its fury. Miller gives us an up-close, deeply personal view of a war that was more savagely fought -- and whose outcome was in greater doubt -- than readers might imagine. This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative. Miller covers the entire war -- on land, at sea, and in the air -- and provides new coverage of the brutal island fighting in the Pacific, the bomber war over Europe, the liberation of the death camps, and

the contributions of African Americans and other minorities. He concludes with a suspenseful, never-before-told story of the atomic bombing of Nagasaki, based on interviews with the men who flew the mission that ended the war.

Berlin

The Downfall 1945 *Penguin UK*

The Red Army had much to avenge when it finally reached the frontiers of the Reich in January 1945. Political instructors rammed home the message of Wehrmacht and SS brutality. The result was the most terrifying example of fire and sword ever known, with tanks crushing refugee columns under their tracks, mass rape, pillage and destruction. Hundreds of thousands of

women and children froze to death or were massacred because Nazi Party chiefs, refusing to face defeat, had forbidden the evacuation of civilians. Over seven million fled westwards from the terror of the Red Army. Antony Beevor reconstructs the experiences of those millions caught up in the nightmare of the Third Reich's final collapse, telling a terrible story of pride, stupidity, fanaticism, revenge and savagery, but also one of astonishing endurance, self-sacrifice and survival against all odds.

Mr Churchill's Profession *A&C Black*

A fascinating new look at a neglected side of Winston Churchill - his life as a professional author - revealing how his most important literary work shaped his

role as a world leader, and the history of the Second World War

World War II Day By Day *Chartwell Books*

The hardcover reference titles in the Day by Day series examine the evolution of wars in a chronological timeline, from the first skirmish to the last battle and everything in between. These books are a historical companion to each major war in the nineteenth and twentieth century. The fate of soldiers, battalions, armies, can change in the blink of an eye—with this comprehensive book readers can follow the conflicting sides in their strategy, weaponry, and policies. *World War II Day by Day* is a chronological history of the second World War from the beginning of the

Polish campaign in September 1939 to the surrender of Japan in Tokyo Bay on September 2, 1945. All the major war theaters are covered, as is the fighting in the air and the sea. The dated entries, which are written as though they have just happened, thereby recapturing the immediacy of the war, analyze the major battles and campaigns of the war, such as Stalingrad, Kursk, Midway, D-Day, Iwo Jima, Okinawa and Berlin. Accompanying the entries in *World War II Day by Day* are longer features on various aspects of the conflict, such as the war's decisive weapons, strategic decisions, and policies. There are also biographical entries on the individuals who shaped and prosecuted the war in both Europe and the Pacific theaters: leaders such as Chamberlain, Stalin, Zhukov, MacArthur,

Hitler, Manstein, and Eisenhower.

MacArthur at War

World War II in the Pacific *Little, Brown*

A Finalist for the Gilder Lehrman Prize for Military History at the New-York Historical Society The definitive account of General Douglas MacArthur's rise during World War II, from the author of the bestseller *The Admirals*. World War II changed the course of history. Douglas MacArthur changed the course of World War II. *MACARTHUR AT WAR* will go deeper into this transformative period of his life than previous biographies, drilling into the military strategy that Walter R. Borneman is so skilled at conveying, and exploring how personality and ego

translate into military successes and failures. Architect of stunning triumphs and inexplicable defeats, General MacArthur is the most intriguing military leader of the twentieth century. There was never any middle ground with MacArthur. This in-depth study of the most critical period of his career shows how MacArthur's influence spread far beyond the war-torn Pacific.

The Day of Battle

The War in Sicily and Italy, 1943-1944 *Macmillan*

The second volume in a trilogy chronicling the liberation of Europe during World War II focuses on the Allied campaigns in Sicily and Italy, detailing the bloody battles at Salerno, Anzio,

Monte Cassino, and more under the command of controversial Lt. General Mark Clark, as well as the June 1944 liberation of Rome. By the Pulitzer Prize-winning author of *An Army at Dawn*. Reprint. 150,000 first printing.

Britain's War Machine

Weapons, Resources, and Experts in the Second World War *Oxford University Press*

The familiar image of the British in the Second World War is that of the plucky underdog taking on German might. David Edgerton's bold, compelling new history shows the conflict in a new light, with Britain as a very wealthy country, formidable in arms, ruthless in pursuit of its interests, and in command of a global

production system. Rather than belittled by a Nazi behemoth, Britain arguably had the world's most advanced mechanized forces. It had not only a great empire, but allies large and small. Edgerton shows that Britain fought on many fronts and its many home fronts kept it exceptionally well supplied with weapons, food and oil, allowing it to mobilize to an extraordinary extent. It created and deployed a vast empire of machines, from the humble tramp steamer to the battleship, from the rifle to the tank, made in colossal factories the world over. Scientists and engineers invented new weapons, encouraged by a government and prime minister enthusiastic about the latest technologies. The British, indeed Churchillian, vision of war and modernity

was challenged by repeated defeat at the hands of less well-equipped enemies. Yet the end result was a vindication of this vision. Like the United States, a powerful Britain won a cheap victory, while others paid a great price. Putting resources, machines and experts at the heart of a global rather than merely imperial story, Britain's War Machine demolishes timeworn myths about wartime Britain and gives us a groundbreaking and often unsettling picture of a great power in action.

D-Day: The Decision to Launch

A Selection from D-Day: The Battle for Normandy (Penguin Tracks)

Penguin

The little-known drama of the last-

minute decision to launch the invasion of Normandy—excerpted from the internationally bestselling *D-Day: The Battle for Normandy*. In *D-Day: The Decision to Launch*, excerpted from Antony Beevor's bestselling book *D-Day: The Battle for Normandy*, readers get the little-known story of how the difficult decision was made to launch the Allied invasion of France on June 6, 1944. The stakes could not have been higher: if Operation Overlord were to fail, it would be a crushing blow to the Allies, a huge loss of both men and equipment. The decision of when to launch rested with supreme commander General Dwight D. Eisenhower, but it hinged on one factor: the weather. If there was too much cloud cover, the Allied bombers wouldn't be able to provide air support, and if the

seas were too rough, the landing craft would be swamped. It fell to one man to predict the weather: Dr. James Stagg, the head of the meteorological team at Supreme Headquarters Allied Expeditionary Force. This riveting selection from *D-Day*, praised by *Time* as "a vibrant work of history that honors the sacrifice of tens of thousands of men and women," tells the fascinating inside story of one of the most important decisions of World War II.

The Burden of Responsibility

Blum, Camus, Aron, and the French Twentieth Century *University of Chicago Press*

Using the lives of the three outstanding French intellectuals of the twentieth

century, renowned historian Tony Judt offers a unique look at how intellectuals can ignore political pressures and demonstrate a heroic commitment to personal integrity and moral responsibility unfettered by the difficult political exigencies of their time. Through the prism of the lives of Leon Blum, Albert Camus, and Raymond Aron, Judt examines pivotal issues in the history of contemporary French society—antisemitism and the dilemma of Jewish identity, political and moral idealism in public life, the Marxist moment in French thought, the traumas of decolonization, the disaffection of the intelligentsia, and the insidious quarrels rending Right and Left. Judt focuses particularly on Blum's leadership of the Popular Front and his stern defiance of

the Vichy governments, on Camus's part in the Resistance and Algerian War, and on Aron's cultural commentary and opposition to the facile acceptance by many French intellectuals of communism's utopian promise. Severely maligned by powerful critics and rivals, each of these exemplary figures stood fast in their principles and eventually won some measure of personal and public redemption. Judt constructs a compelling portrait of modern French intellectual life and politics. He challenges the conventional account of the role of intellectuals precisely because they mattered in France, because they could shape public opinion and influence policy. In Blum, Camus, and Aron, Judt finds three very different men who did not simply play the role,

but evinced a courage and a responsibility in public life that far outshone their contemporaries. "An eloquent and instructive study of intellectual courage in the face of what the author persuasively describes as intellectual irresponsibility."—Richard Bernstein, *New York Times*

The Secret War

Spies, Ciphers, and Guerrillas, 1939-1945 *HarperCollins*

NEW YORK TIMES BESTSELLER From one of the foremost historians of the period and the acclaimed author of *Inferno* and *Catastrophe: 1914*, *The Secret War* is a sweeping examination of one of the most important yet underexplored aspects of World War

II—intelligence—showing how espionage successes and failures by the United States, Britain, Russia, Germany, and Japan influenced the course of the war and its final outcome. Spies, codes, and guerrillas played unprecedentedly critical roles in the Second World War, exploited by every nation in the struggle to gain secret knowledge of its foes, and to sow havoc behind the fronts. In *The Secret War*, Max Hastings presents a worldwide cast of characters and some extraordinary sagas of intelligence and resistance, to create a new perspective on the greatest conflict in history

Britain at Bay

The Epic Story of the Second World War, 1938-1941 *Vintage*

"Here is the many-faceted, world-historically significant story of Britain at war. In looking closely at the military and political dimensions of the conflict's first crucial years, Alan Allport tackles questions such as: Could the war have been avoided? Could it have been lost? Were the strategic decisions the rights ones? How well did the British organize and fight? How well did the British live up to their own values? What difference did the war make in the end to the fate of the nation? In answering these and other essential questions he focuses on the human contingencies of the war, weighing directly at the roles of individuals and the outcomes determined by luck or chance. Moreover, he looks intimately at the changes in wartime British society and culture.

Britain at Bay draws on a large cast of characters--from the leading statesmen and military commanders who made the decisions, to the ordinary men, women, and children who carried them out and lived through their consequences--in a comprehensible and compelling single history of forty-six million people. For better or worse, much of Britain today is ultimately the product of the experiences of 1938-1941"--

Franklin and Winston

An Intimate Portrait of an Epic Friendship

Examines the complex relationship between Franklin Roosevelt and Winston Churchill and its influence on the course of World War II, examining their

individual attempts to manage and influence each other.
