Marketing Metaphoria

What Deep Metaphors Reveal about the Minds of Consumers Harvard Business Press

Meet the seven samurai of metaphor in this provocative follow-up toHow Customers Think. Jerry and Lindsay Zaltman explain how and why we use deep metaphors, which the authors define as any form of non-literal representation so deeply embedded in a person's thought processes that the person is unconscious of using it. Focusing on the seven metaphors - balance, connection, container, control, journey, resource, and transformation--the Zaltmans show how deep metaphors unconsciously pervade and shape our lives. If we recognise them and understand their power over us, we can use them more purposefully to improve the quality of customer relationships and market research and to challenge such pervasive business practices as market segmentation. Most important, deep metaphors can help prompt deeper thinking about key issues in business, where much

thought is usually shallow, transient, and insight-free. To demonstrate the possibilities, the Zaltmans use an array of everyday stories from their research. The authors also share images collected through, or created by consumers during, their research to reveal insights better expressed through pictures than words.

This book explains how mental shortcuts (cognitive biases) affect your customers' decision making and shows you how to be more persuasive online. Philippe Aimé and Jochen Grünbeck are optimisation addicts and have been at the forefront of digital marketing since the beginning. Inspired by behavioural economists like Daniel Kahneman, Dan Ariely and Richard Thaler, the techniques described in Smart Persuasion leverage powerful decision-making biases to make marketing more effective. Alongside these behavioural insights, Smart Persuasion incorporates research from marketing experts such as Jonah Berger, Robert Cialdini and Roger Dooley. Principles relating to attention and perception, as well as the cognitive effects that make consumers predictably irrational, are distilled into concrete website optimisation strategies. Drawing from hundreds of unique studies, Smart Persuasion lists proven effects such as Anchoring and Framing. Each one is illustrated with case-studies, examples and ideas that you can apply immediately. Using the persuasive strategies outlined in this book will allow you to influence consumers more effectively, unlocking your website's potential. Experiential Marketing

Consumer Behavior, Customer Experience and The 7Es *Routledge*

Why do some brands make us feel good, while others frustrate us? What makes us engage with certain brands, rebuy the same products, return to the same store or revisit the same destination over and over again? Is there a framework underlying how past and lived shopping experiences can affect our future experiences, our buying decisions, and our brand loyalty? In this exciting new book, Wided Batat introduces readers to the new customer experience framework and the era of the "Experiential Marketing Mix." She introduces the concept of the 7Es (Experience, Exchange, Extension, Emphasis, Empathy, Emotional touchpoints, Emic/Etic process); a tool that focuses on the consumer as a starting point in marketing strategies. By using these, companies can design suitable, emotional, and profitable customer experiences in a phygital context (physical place and digital space) including both offline and online digital experiences. Batat argues that a traditional product-centric should be replaced by the appropriate mix of 7Es, based upon a more consumer/experience-centric logic. Experiential Marketing is a guide to building experiences consumers cannot forget. It will be of interest for CEOs, brand managers, marketing and communication professionals, students, and anyone eager to learn more about how to design the ultimate customer experience in a new phygital. In this book, Professor Batat combines theory and practice and gives readers an overview of: the origins and the rise of the customer experience logic, the 7Es of the new experiential marketing mix, and the challenges for the future.

Decision making: how and under what circumstances it is possible to predict consumer choices, attitudes, and persuasion. Personality and lifestyle: how insight into consumer personality can be used to formulate marketing plans. Social behavior: the powerful role of social influence on consumption.
