Self Concept Clarity And Self

Self-concept clarity is a useful variable in understanding psychological health, coping, and reactions to one's interpersonal world. One of the biggest areas in need of future research is how self-concept clarity develops, and what contributes to low versus high clarity. Can someone have high self-concept clarity and then experience life events that lead to lower clarity?

Self-Concept Clarity - IResearchNet

self-concept clarity and self-continuity are related, but, more importantly, whether the former influences the latter, how, and to what effect. In seven studies, we highlight how low (compared with high) self-concept clarity influences self-continuity, and we explicate the restorative function of autobiographical memory in

...

This study focused on the identification of conceptually meaningful groups of individuals based on their joint self-concept differentiation (SCD) and self-concept clarity (SCC) scores. Notably, we examined whether membership in different SCD-SCC groups differed by age and also was associated with differences in psychological well-being (PWB).

Self-Concept Differentiation and Self-Concept Clarity ...

Self-concept clarity (SCC) references a structural aspect of the self-concept: the extent to which self-beliefs are clearly and confidently defined, internally consistent, and stable. This article reports the SCC Scale and examines (a) its correlations with self-esteem (SE), the Big Five dimensions, and self-focused attention

(Study 1); (b) its criterion validity (Study 2); and (c) its cultural boundaries (Study 3).

Self-concept clarity: Measurement, personality correlates

...

In Conley's (1984) terms, self-concept clarity is a "self-opinion"—a type of individual difference that is useful to assess both as a state and as a trait because, although it is susceptible to environmental influences, it also exhibits high levels of temporal stability (Conley argued that, with time lags longer than 10 years, self-opinions are less stable than intelligence and personality traits).

Self-esteem and clarity of the self-concept.

Self-concept and self-clarity The concept of self-concept itself has two meanings in the psychology literature. The first is self-esteem—the degree to which one considers oneself as a valued, capable, and worthy person (e.g., Brandon, 1969, Rosenberg, 1965).

Self-concept clarity: Exploring its role in consumer ...

One's self-concept is a collection of beliefs about oneself. Generally, self-concept embodies the answer to "Who am I?". One's self-concept is made up of self-schemas, and their past, present, and future selves. Self-concept is distinguishable from self-awareness, which refers to the extent to which self-knowledge is defined, consistent, and currently applicable to one's attitudes and dispositions. Self-concept also differs from self-esteem: self-concept is a cognitive or descriptive component o
