Recently, I read the really nice book, entitled “C Traps and Pitfalls”, to extend my competences in C. This post gathers all my key findings and takeaways from this book. I wrote this more for myself to note the key findings, but I think any C programmer can find something useful in my notes. Enjoy!

My takeaways from "C Traps and Pitfalls"
The C feature of declaring a function in a local scope is worthless since it lies about the true scope. Most programmers place all prototypes in header

files. But even a worthless feature that you never use can haunt you.
