Color and Light

A Guide for the Realist Painter *Andrews McMeel Publishing*

From New York Times best-selling author of the Dinotopia series, James Gurney, comes a carefully crafted and researched study on color and light in paintings. This art instruction book will accompany the acclaimed Imaginative Realism: How to Paint What Doesn't Exist. James Gurney, New York Times best-selling author and artist of the Dinotopia series, follows Imaginative Realism with his second art-instruction book, Color and Light: A Guide for the Realist Painter. A researched study on two of art's most fundamental themes, Color and Light bridges the gap between abstract theory and practical knowledge. Beginning with a survey of underappreciated masters who perfected the use of color and light, the book examines how light reveals form, the properties of color and pigments, and the wide variety of atmospheric effects. Gurney cuts through the confusing and contradictory dogma about color, testing it in the light of science and observation. A glossary, pigment index, and bibliography complete what will ultimately become an indispensable tool for any artist. This book is the second in a series based on his blog, gurneyjourney.com. His first in the series, Imaginative Realism, was widely acclaimed in the fantastical art world, and was ranked the #1 Bestseller on the Amazon list for art instruction. "James Gurney's new book, Color and Light, cleverly bridges the gap between artistic observation and scientific explanation. Not only does he eloquently describe all the effects of color and light an artist might encounter, but he thrills us with his striking paintings in the process." --Armand Cabrera, Artist

The Beauty of Everyday Things *Penguin UK*

The daily lives of ordinary people are replete with objects, common things used in commonplace settings. These objects are our constant companions in life. As such, writes Soetsu Yanagi, they should be made with care and built to last, treated with respect and even affection. They should be natural and simple, sturdy and safe - the aesthetic result of wholeheartedly fulfilling utilitarian needs. They should, in short, be things of beauty. In an age of feeble and ugly machine-made things, these essays call for us to deepen and transform our relationship with the objects that surround us. Inspired by the work of the simple, humble craftsmen Yanagi encountered during his lifelong travels through Japan and Korea, they are an earnest defence of modest, honest, handcrafted things - from traditional teacups to jars to cloth and paper. Objects like these exemplify the enduring appeal of simplicity and function: the beauty of everyday things.

Los Angeles Modernism Revisited

Houses by Neutra, Schindler, Ain and Contemporaries *Park Publishing (WI)*

Two Austrian-born designers have left their indelible mark on California's residential architecture of the 1930s to 1960s: Richard Neutra (1892?1970) and Rudolph M. Schindler (1887?1953) combined modern form and inventive construction with new materials to create a truly modern vision of living that remains inspirational to the present day.00This new book features twenty famous and lesser known houses from that period, designed by the two pioneers and other architects that were influenced by Neutra's and Schindler's ideas. All are marked by highly economical use and outstanding quality of space, a minimalist aesthetic, and by their ideal adaption to climatic conditions. They are monuments of a period as well as timeless models for contemporary and future architecture.00The images by photographer David Schreyer show the buildings in their present state as a commodity of highest quality that can be, and should be, altered to meet today's changed demands to a living space. Andreas Nierhaus's texts, based on interviews, explore the relationship of the present inhabitants to their homes and what they mean to them. Together, the authors offer uniquely intimate insights into a sophisticated way of life still too little known outside California.

Amy Sillman: Faux Pas: Selected Writings and Drawings *After 8 Books*
Essays on art-making, abstraction, humor, not-knowing, awkwardness and more, from one of New York's most influential and popular painters and teachers Since the 1970s, Amy Sillman--a beloved and key figure of the New York art scene--has developed a singular body of work that includes large-scale gestural paintings blending abstraction with representation, as well as zines and iPad animations. Over the past decade, Sillman has also produced stimulating essays on the practice of art or the work of other artists: for example, reevaluating the work of the abstract expressionists with a queer eye; elaborating on the role of awkwardness and the body in the artistic process; and discussing in depth the role and meanings of color and shape. Featuring a foreword by Lynne Tillman, Faux Pas is the first book to gather a significant selection of Sillman's essays, reviews and lectures, accompanied by drawings, most of them made specially for the book. Faux Pas aims at revealing the coherence and originality of Sillman's reflection, as she addresses the possibilities of art today, favoring excess over good taste, wrestling over dandyism, forms over symbols, with as much critical sense as humor. Based in New York City, Amy Sillman (born 1955) is an artist whose work consistently combines the visceral with the intellectual. She began to study painting in the 1970s at the School of Visual Arts and she received her MFA from Bard College in 1995. Her work has been exhibited internationally, including at the Whitney Biennial in 2014; her writing has appeared in Bookforum and Artforum, among other publications.
