It was later adopted by Rotary International, the global federation of Rotary service clubs.

### **The Four-Way Test - Wikipedia**

The “open” number four digit — lower case letter “h” upside-down — is advised if/when writing the number in one’s own handwriting. Why? In handwriting, the use of a “closed” four — “4” — is often very easily confused with the digit 9 . So, to avoid risk for any confusion, write the “open” version only.

### **What is the correct way to write the number four? - Quora**

Answered June 16, 2015. There is no set standard for the usage of either of the two forms in common parlance. In publishing, though, the practice may vary from one style guide to another. In my opinion, using 'four' comes across as more formal, while '4' is more informal. I prefer using full words in my writing.

You just say the numbers as a string of single digits from left to right. So if your phone number is 2376451, you would say 'two three seven six four five one'. It only gets complicated if there are repeats, as in 23375. You could use the method above, but most people would generally say 'two double three seven five'.
