Oracle Service Bus 12c: Design & Integrate Services, This Oracle Service Bus 12c: Design and Integrate Services training teaches you how to integrate services across various protocols and technologies. Deep dive into the VETRO (Validate, Enrich, Transform, Route, Operate) pattern implementation.

Oracle Service Bus 12c: Design & Integrate Services

Oracle Service Bus transforms complex and brittle architectures into agile integration networks by connecting, virtualizing, and managing interactions between services and applications. Oracle Service Bus delivers low-cost, standards-based integration for mission critical SOA environments where extreme performance, scalability and reliability are critical requirements.

Oracle Service Bus

An enterprise service bus should be considered as an architecture style or pattern and not as a product. There is no definition or specification for the ESB and therefore no standard. An ESB can help achieve looser coupling between systems. A service on an ESB is stateless.
