Method 1311 Toxicity Characteristic Leaching Procedure

As a result, the specific details of Method 1311 and the numerical limits for the toxicity characteristic itself are linked together. Increasing the acid strength of the leaching fluid to leach a larger amount of any of the constituents changes the scenario that the test was designed to simulate.

EPA SW-846 Test Method 1311 - TCLP FAQs - Frequently asked ...

When it comes to determining if a waste is hazardous from a disposal standpoint, there is only one test method that matters. USEPA mandates the use of Method 1311, Toxicity Characteristic Leaching Procedure (TCLP) for determining if a waste is hazardous or non-hazardous for disposal purposes. When considering options for waste treatment, the first target is to produce a waste that is not hazardous according to EPA RCRA regulatory limits.
