The Politics Of Media Policy

The Politics of Media Policy provides a critical perspective on the dynamics of media policy in the US and UK and offers a comprehensive guide to some of the major points of debate in the media today. While many policymakers boast of the openness and pluralism of their media systems, this book exposes the commitment to market principles that saturates the media policy environment and distorts the development and application of democratic media policies.

[EPUB] The Politics Of Media Policy

Media policy / M. politics is a term describing all legislation and political action directed towards regulating the media, especially mass media, and the media industry. Those actions will usually be prompted by pressures from public opinion or from industry interest groups. Print media, public radio and television broadcasting, mobile communications all converge in the digital infrastructure. This digitalisation produces markets that still lack consistent and rigorous regulation. In instances

Communication policies are usually formulated as a result of pressures from public opinion or from self-interested groups (e.g. a branch of the media industry). Media policies organize goals and means of action in relation to the media in general, to one media sector or some problematic issue (e.g. media concentration or transnational media flow) and the policy-making process normally involves the expression of conflicting interests. The main struggles over communication policy involve the ...

2.3 Media policy and policy making

The media policy needs to establish a chain of command in order to assign certain people to handle inquiries from the media in case of the primary media relations officer is not around. The media policy must also include what documents can be shared with the media and whether the media can be granted unrestricted access.

10+ The Politics Of Media Policy PDF

"The Politics of Media Policy opens with a highly insightful analysis of how to do media policy studies in original and significant ways. Unfortunately, by anchoring its empirical analysis closely to a desire to expose the hidden machinations of neo-liberal ideology, it loses focus the more that it moves out of the dominant terrain of political economy in the study of media ownership.
