The Evolution of Physics: The Growth of Ideas from Early Concepts to Relativity

and Quanta is a science book for the lay reader. Written by the physicists Albert Einstein and Leopold Infeld, it traces the development of ideas in physics. It was originally published in 1938 by Cambridge University Press. It was a popular success, and was featured in a Time cover story.

The Evolution of Physics - Wikipedia

Einstein-Infeld (an Einstein associate) trace the transition, forced by findings in the late 19th and early 20th century, between classical physics and modern physics that challenged the Newtonian explanation of the world. Newton, the authors state, was not so much replaced as he was incorporated into a higher-level,

more encompassing paradigm.
