Extract. Solution-focused brief therapy is an approach to psychotherapy based on solution-building rather than problem-solving. It explores current resources and future hopes rather than present problems and past causes and typically involves only three to five sessions.

Solution-focused brief therapy | Advances in Psychiatric ...

Solution focused therapists traditionally take a brief consultation break during the 2nd half of each therapy session during which the therapist reflects carefully on what has occurred in the session. Some time prior to the break, the client is asked "Is there anything that I did not ask that you think it would be important for me to know?"

What is Solution-Focused Therapy?

Solution-focused brief therapy believes that problems belong to the past while solutions exist in the present and future. Solution-focused brief therapy assumes that the meanings of a problem are artifacts of the context (de Shazer, 1991). Because one can never know exactly why a problem exists and because problem perceptions are not external objective "realities," insight into the problem's origin is not necessary to initiate a process of change in clients.
