Architecture and the Historical Imagination

**Eugène-Emmanuel
Viollet-le-Duc,
1814-1879** *Routledge*

Hailed as one of the key theoreticians of modernism, Eugène-Emmanuel Viollet-le-Duc was also the most renowned restoration architect of his age, a

celebrated medieval archaeologist and a fervent champion of Gothic revivalism. He published some of the most influential texts in the history of modern architecture such as the *Dictionnaire raisonné de l'architecture française du XIe au XVIe siècle* and *Entretiens sur l'architecture*, but also studies on warfare, geology and racial history. Martin Bressani expertly traces Viollet-le-Duc's complex intellectual development, mapping the attitudes he adopted toward the past, showing how restoration, in all its layered meaning, shaped his outlook. Through his life journey, we follow the route by which the technological subject was born out of

nineteenth-century historicism.

Machining, Joining and Modifications of Advanced Materials
Springer

This book presents the latest advances in mechanical and materials engineering applied to the machining, joining and modification of modern engineering materials. The contributions cover the classical fields of casting, forming and injection moulding as representative manufacturing methods, whereas additive manufacturing methods (rapid prototyping and laser sintering) are treated as more innovative and recent technologies that are paving the way for the manufacturing of shapes and features

that traditional methods are unable to deliver. The book also explores water jet cutting as an innovative cutting technology that avoids the heat build-up typical of classical mechanical cutting. It introduces readers to laser cutting as an alternative technology for the separation of materials, and to classical bonding and friction stir welding approaches in the context of joining technologies. In many cases, forming and machining technologies require additional post-treatment to achieve the required level of surface quality or to furnish a protective layer. Accordingly, sections on laser treatment, shot peening and the

production of protective layers round out the book's coverage.

papers presented at the 2014 Joint Conference on Mechanical Design Engineering and Advanced Manufacturing, which took place in June 2014 in Toulouse, France, it presents recent research and industrial success stories related to implementing interactive design and manufacturing solutions.

Integrated Design and Manufacturing in Mechanical Engineering

Proceedings of the 1st IDMME Conference held in Nantes, France, 15-17 April 1996
Springer Science & Business Media

This volume contains the selected papers of the first I.D.M.M.E.

conference on 'Integrated Design and Manufacturing in Mechanical Engineering', held in Nantes from 15-17 April 1996. Its objective was to discuss the questions related to the definition of the optimal design and manufacturing processes and to their integration through coherent methodologies in adapted environments. The initiative of the Conference and the organization thereof, is mainly due to the efforts of the french PRIMECA group (Pool of Computer Resources for Mechanics) started eight years ago. We were able to attract the international community with the support of the International Institution for Production

Engineering Research (C.I.R.P.). The conference brought together two hundred and fifty specialists from around the world. About ninety papers and twenty posters were presented covering three main topics : optimization and evaluation of the product design process, optimization and evaluation of the manufacturing systems and methodological aspects.

Prat­iques is­sues du coa­ching et de l'in­tel­li­gence

col­lec­tive *De Boeck Su­pe­rieur*

Com­me par has­ard, notre sys­tème édu­ca­tif con­tinue sa des­cen­te inexo­rable dans les pal­marès in­ter­na­tionaux. Com­me par has­ard, nos or­ga­ni­sa­tions se trou­vent con­frontées à trou­ver des éco­no­mies et des gains de pro­duc­tivité par une quête dé­ses­pé­rée de so­lu­tions tech­no­lo­gi­ques dé­mesu­ré­ment com­plexes dans les­quel­les, en­suite, elles se per­dent. Com­me par has­ard, nos so­ciétés oc­ci­den­tales ont de plus en plus de mal à trou­ver un mo­dèle so­cial ga­gnant-ga­gnant. Et s'il n'y avait pas de has­ard ? La plu­part des spé­cia­listes de l'Édu­ca­tion et de la

Formation défendent avec acharnement un modèle trop exclusivement fondé sur les connaissances. De même, côté entreprises, on promeut fréquemment en tant que managers des experts qui ont réussi mais qui se trouvent ensuite en difficulté quand il s'agit de sortir de leur expertise initiale. Trop souvent, on construit une équipe sur des talents individuels qu'on se contente ensuite de juxtaposer. Et si nous remettons en cause, tant qu'il en est encore temps, nos manières cloisonnées de réfléchir ? Enseignants et managers ne sont-ils pas, en grande partie, des praticiens d'un même métier : faire vivre un collectif pour développer des apprentissages au service de la société ? Il existe des réponses simples pour changer la donne. L'auteur les a trouvées en faisant son propre chemin : dans le monde de la formation - jusqu'à créer et diriger une école d'ingénieurs qui forme autrement - puis dans le monde du management, en devenant coach de managers et d'équipes qui fonctionnent différemment. Il convoque également des spécialistes de la pédagogie, du coaching et de l'intelligence collective qui confortent sa réflexion. Il nous invite ainsi à trouver nos propres « clés » pour nous prendre en main sans attendre. L'ouvrage s'adresse tant aux enseignants et formateurs qu'aux

managers et dirigeants d'entreprises et d'organisations. Il intéressera également les consultants et les coachs amenés à accompagner des organisations et des équipes, les parents, les bénévoles d'associations et toute personne qui veut dynamiser le travail en équipe.

A History of the French in London

Liberty, Equality, Opportunity

This book examines, for the first time, the history of the social, cultural, political and economic presence of the French in London, and explores the multiple ways in which this presence has contributed to the life of the city. The capital has often provided a

place of refuge, from the Huguenots in the 17th century, through the period of the French Revolution, to various exile communities during the 19th century, and on to the Free French in the Second World War. It also considers the generation of French citizens who settled in post-war London, and goes on to provide insights into the contemporary French presence by assessing the motives and lives of French people seeking new opportunities in the late 20th and early 21st centuries. It analyses the impact that the French have had historically, and continue to have, on London life in the arts, gastronomy, business, industry and education, manifest in

diverse places and institutions from the religious to the political via the educational, to the commercial and creative industries.

The Pariahs of Yesterday

Breton Migrants in Paris *Duke University Press*

This work looks at the surge of Bretons who left their homes in Western France in the latter half of the 19th century to live and work in Paris. Portrayed as backward, ignorant peasants they found no welcome until after WWII. Moch positions her work within immigration theory, connecting migration studies to theories about state projects of assimilation and about cultures of inclusion and

exclusion.

Aménagement des espaces verts urbains et du paysage rural (4e éd.) *Lavoisier*

Ce livre synthétise l'ensemble des données liées à l'origine, à la conception et à la réalisation des divers types d'espaces verts. Il présente aussi une réflexion sur la manière d'appréhender le paysage, ses différents aspects, ses caractéristiques et ses éventualités de transformation. Cette 4e édition entièrement revue intègre les derniers textes législatifs à la fois dans

le cadre institutionnel (PLU, SCOT) et dans la réalisation du projet d'aménagement (par exemple, l'accessibilité aux personnes handicapées). La partie technique prend en compte les dernières normes qui se sont multipliées ces dernières années (sur le béton, par exemple) et présente les nouveaux matériaux et techniques respectueux de l'environnement et en accord avec la notion de développement durable. Par ailleurs, des aménagements paysagers, parcs et jardins mis en oeuvre depuis la dernière édition sont détaillés. Richement illustré, se référant sans cesse à des situations concrètes, ce classique de l'enseignement agricole bénéficie de

l'expérience pédagogique des auteurs et de leur connaissance de la pratique.

Louis Vuitton City Bags: A Natural History *Rizzoli Publications*

This volume is an unprecedented history of Louis Vuitton's women's bags, the

most coveted line of accessories in women's fashion. At the heart of Louis Vuitton are its City Bags, a range of women's bags that dates back to the turn of the twentieth century. Featuring the trademark monograms of the house, the City Bag story began with the Steamer, a resort bag designed in 1901 to be packed inside a much larger steamer trunk. These bags have in a hundred years formally diversified into a dizzying array of handbags for every conceivable function demanded by the modern woman. Profoundly influential, City Bags are now known to millions by their descriptive names (Keepall, Bucket, Papillon, Alma, Locket, Noe, Speedy) and are still evolving into more

fantastical forms. Lavishly illustrated with new and archival photography, historical graphics, landmark editorials, and ad campaigns, the volume traces the history of these specific bag families, and examines the earliest specimens and today's most sought-after collectibles, including Vuitton's collaborations with Takashi Murakami, Stephen Sprouse, Richard Prince, Yayoi Kusama, and Rei Kawakubo and one-off projects by Zaha Hadid, Shigeru Ban, Vivienne Westwood, Helmut Lang, Andrée Putman, and of course, Marc Jacobs. *Louis Vuitton: City Bags* is an ambitious volume on the creation and cultivation of a cultural phenomenon.
