Information Security Policies Made Easy by Charles Cresson ...

Information security policies are written instructions for keeping information secure. Policies should include

guidance on passwords, device use, Internet use, information classification, physical security—as in securing information physically—and reporting requirements.

Effective Security Policies Every Company Should Have

The purpose of NHS England's Information Security policy is to protect, to a consistently high standard, all information assets. The policy covers security which can be applied through technology but perhaps more crucially it encompasses the behaviour of the people who manage information in the line of NHS England business.

Information Security Policy - NHS England

An information security policy is a set of rules enacted by an organization to ensure that all users of networks or the IT structure within the organization's domain abide by the prescriptions regarding the security of data stored digitally within the boundaries the organization stretches its authority.
