Power Query M Primer (Part 10): Types—List, Record. October 30, 2018 • Data Transformation, Microsoft Excel, Microsoft Power BI, Power Query M, Types. You might be inclined to skip learning about list and record and jump directly to table. After all, as far as types that hold other values go, you mostly work with table.

Power Query M Primer (Part 10): Types—List, Record | Ben ...

I found a forums post from Guy Hunkin of the Excel Power Query team in 2017 here, which gives the following summary: Originally, Excel.Workbook used to read the entire workbook data to accurately assign types to the columns. This was EXTREMELY slow on large workbooks. Having this in mind, we added this flag to delay the behavior.
