Advances in the Sign-Language Development of Deaf Children ...

Sign languages are now accepted as complex and complete languages that are the linguistic equals of spoken languages. Sign-language research is a relatively young field, having begun fewer than 50 years ago.

Advances in the Sign Language Development of Deaf Children ...

Research in visual sign language acquisition has, since its advent in the 1960s, expanded the understanding of human language [32, 33]. Human languages are not fixed to the auditory modality but...

Advances in the Sign-Language Development of Deaf Children ...

Sign language has no written component. Deaf people can only use sign language to communicate face to face. This means that the deaf must use English or another language for reading and writing, which has become increasingly important for business and communication with the advent of computers and the Internet.
