The Worldview That Makes the Underclass *Ivan R. Dee*

A searing account of life in the underclass and why it persists as it does, written by a British psychiatrist.

Life at the Bottom

The Worldview that Makes the Underclass *Ivan R Dee*

Theodore Dalrymple argues that long-term poverty is caused not by economics but by a dysfunctional set of values, one that is continually reinforced by an elite culture searching for victims.

Life at the Bottom

The Worldview that Makes the Underclass *Ivan R Dee*

This is a searing account of life in the underclass and why it persists as it does, written by a British psychiatrist who treats the poor in a slum hospital and a prison in England. Dr. Dalrymple's key insight is that long-term poverty is caused not by economics but by a dysfunctional set of values.

Believers

Making a Life at the End of the World *Farrar, Straus and Giroux*

In search of answers and action, the award-winning poet and essayist Lisa Wells brings us *Believers*, introducing trailblazers and outliers from across the globe who have found radically new ways to live and reconnect to the Earth in the face of climate change. We find ourselves at the end of the world. How, then, shall we live? Like most of us, Lisa Wells has spent years overwhelmed by increasingly urgent news of climate change on an apocalyptic scale. She did not need to be convinced of the stakes, but she could not find practical answers. She embarked on a pilgrimage, seeking wisdom and paths to action from outliers and visionaries, pragmatists and iconoclasts. *Believers* tracks through the

lives of these people who are dedicated to repairing the earth and seemingly undaunted by the task ahead. Wells meets an itinerant gardener and misanthrope leading a group of nomadic activists in rewilding the American desert. She finds a group of environmentalist Christians practicing “watershed discipleship” in New Mexico and another group in Philadelphia turning the tools of violence into tools of farming—guns into ploughshares. She watches the world’s greatest tracker teach others how to read a trail, and visits botanists who are restoring land overrun by invasive species and destructive humans. She talks with survivors of catastrophic wildfires in California as they try to rebuild in ways that acknowledge the fires will come

again. Through empathic, critical portraits, Wells shows that these trailblazers are not so far beyond the rest of us. They have had the same realization, have accepted that we are living through a global catastrophe, but are trying to answer the next question: How do you make a life at the end of the world? Through this miraculous commingling of acceptance and activism, this focus on seeing clearly and moving forward, Wells is able to take the devastating news facing us all, every day, and inject a possibility of real hope. Believers demands transformation. It will change how you think about your own actions, about how you can still make an impact, and about how we might yet reckon with our inheritance.

My Life at the Bottom

The Story of a Lonesome Axolotl *Yonder*

From award-winning Nordic author and illustrator Linda Bondestam comes a new kind of climate change story, narrated by an adorable axolotl who is--possibly--the last of its kind. In a forest of seaweed there was ME, a rare and beautiful little axolotl, going for my first-ever swim. So graceful, and yet so lonesome--out of 987 eggs, mine was the only one that hatched. Who knows, maybe I was the last axolotl in these waters? At the bottom of a lake in Mexico City, our axolotl narrator goes to underwater school, collects treasures tossed away by the big lugs on land, and has dance parties with tiger salamander friends.

Life is good! But as the world gets hotter and hotter, the water gets murkier. Friends become harder to find, and the lonesome axolotl grows even lonelier. Until one day when, out of the blue, a colossal wave carries the axolotl into a surprising new future.... Bittersweet, droll, existential, and hopeful, *My Life at the Bottom* is a tale from the climate crisis unlike any other. Combining her irresistible visual wit with exquisite aquatic art and rare empathy, Linda Bondestam brings us a story of catastrophe that bursts with life.

The Mushroom at the End of the World

On the Possibility of Life in Capitalist Ruins *Princeton University*

Press

What a rare mushroom can teach us about sustaining life on a fragile planet: Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the Northern Hemisphere. Anna Lowenhaupt Tsing's account of these sought-after fungi offers insights into areas far beyond just mushrooms and addresses a crucial question: What manages to live in the ruins we have made? *The Mushroom at the End of the World* explores the unexpected corners of matsutake commerce, where we encounter Japanese gourmets, capitalist traders, Hmong jungle fighters, Finnish nature guides, and more. These companions lead us into fungal ecologies and forest histories to better understand

the promise of cohabitation in a time of massive human devastation. *The Mushroom at the End of the World* delves into the relationship between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

The Curious Life of Krill

A Conservation Story from the Bottom of the World *Island Press*

Krill. It's a familiar word that conjures oceans, whales, and swimming crustaceans. Scientists say they are one of most abundant animals on the planet. But few can accurately describe krill or explain their ecological importance. Eminent krill scientist Stephen Nicol

wants us to know more about these enigmatic creatures and how we can protect them as Antarctic ice melts. This engaging account takes us to the Southern Ocean to learn firsthand the difficulties and rewards of studying krill in their habitat. From his early education about the sex lives of krill in the Bay of Fundy to a krill tattoo gone awry, Nicol uses humor and personal stories to bring the biology and beauty of krill alive.

Life at the End of Life: Finding Words Beyond Words

Finding Words Beyond Words *Intellect Books*

Artist and scholar Marcia Brennan serves as Artist in Residence at the M. D. Anderson Cancer Center in Houston, and

the experience of seeing, close-up, the transitional states and transformational visions involved in the approaching end of life raised countless questions about the intersection of life, death, and art. Those questions are at the heart of this unique book. Bridging disparate fields, including art history, medical humanities, and religious studies, *Life at the End of Life* explores the ways in which art can provide a means for rendering otherwise abstract, deeply personal and spiritual experiences vividly concrete and communicable, even as they remain open-ended and transcendent. In the face of death, suffering, and uncertainty, Brennan shows how artistic expression can offer valuable aesthetic and metaphysical avenues for understanding and for

making meaning.

Admirable Evasions

How Psychology Undermines Morality *Encounter Books*

In *Admirable Evasions*, Theodore Dalrymple explains why human self-understanding has not been bettered by the false promises of the different

schools of psychological thought. Most psychological explanations of human behavior are not only ludicrously inadequate oversimplifications, argues Dalrymple, they are socially harmful in that they allow those who believe in them to evade personal responsibility for their actions and to put the blame on a multitude of scapegoats: on their childhood, their genes, their neurochemistry, even on evolutionary pressures. Dalrymple reveals how the fashionable schools of psychoanalysis, behaviorism, modern neuroscience, and evolutionary psychology all prevent the kind of honest self-examination that is necessary to the formation of human character. Instead, they promote self-obsession without self-examination, and the gross overuse of medicines that

affect the mind. Admirable Evasions also considers metaphysical objections to the assumptions of psychology, and suggests that literature is a far more illuminating window into the human condition than psychology could ever hope to be.

When sixteen-year-old submersible racer Leyla McQueen is chosen to participate in the city's prestigious annual marathon, she sees an opportunity to save her father, who has been arrested on false charges. The Prime Minister promises the champion whatever their heart desires. But the race takes an unexpected turn, forcing Leyla to make an impossible choice. Now she must brave unfathomable waters and defy a corrupt government determined to keep its secrets, all the while dealing with a guarded, hotheaded companion she never asked for in the first place. This brilliantly imagined novel brings us the story of Nel Wright and Sula Peace, who meet as children in the small town of Medallion, Ohio. Nel and Sula's devotion is fierce enough to withstand bullies and the burden of a dreadful secret. It endures even after Nel has grown up to be a pillar of the black community and Sula has become a pariah. But their friendship ends in an unforgivable betrayal—or does it end? Terrifying, comic, ribald and tragic, *Sula* is a work that overflows with life.

Farewell Fear *World Encounter**Institute/New English Review Press*

Farewell Fear is a collection of Theodore Dalrymple's finest essays written for *New English Review* between 2009 and 2012. His first such collection was *Anything Goes* (2011). Once encountered, Theodore Dalrymple has become for many of us a shared treasure—the cultured, often mordantly funny social commentator who was for many years a psychiatrist at a British prison. This collection of recent essays captures Dalrymple at his best, ruminating at one moment about why poisoners tend to be more interesting than other kinds of murderers and at another why Tony Blair's mind reminds him of an Escher drawing. No one else writes so engagingly and so candidly about the world as it is, not as the

politically correct would have it be. -- Dr. Charles Murray author of *Coming Apart* and *The Bell Curve*

Not With a Bang But a Whimper

The Politics and Culture of Decline *Rowman & Littlefield*

Theodore Dalrymple's brilliant new collection of writings follows on the extraordinary success of his earlier books, *Life at the Bottom* and *Our Culture, What's Left of It*. No writer today is more adept and incisive in exploring the state of our culture and the ideas that are changing our ways of life. In *Not with a Bang But a Whimper*, he takes the measure of our cultural decline, with special attention to Britain-its bureaucratic muddle, oppressive welfare

mentality, and aimless young-all pursued in the name of democracy and freedom. He shows how terrorism and the growing numbers of Muslim minorities have changed our public life. Also here are Mr. Dalrymple's trenchant observations on artists and ideologues, and on the treatment of criminals and the mentally disturbed, his area of medical interest.

The Death and Life of Great American Cities *Vintage*

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of

ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Sedation at the End-of-life: An Interdisciplinary Approach *Springer*

The book's main contribution is its interdisciplinary approach to the issue of sedation at the end-of-life. Because it occurs at the end of life, palliative sedation raises a number of important ethical and legal questions, including whether it is a covert form of euthanasia and for what purposes it may legally be used. Many of the book chapters address the first question and almost all deal with a specific form of the second: whether palliative sedation should be used for those experiencing "existential suffering"? This raises the question of what existential suffering is, a topic that is also discussed in the book. The different chapters address these issues from the perspectives of the relevant disciplines: Palliative Medicine, Bioethics, Law and Theology. Hence, helpful

accounts of the clinical and historical background for this issue are provided and the importance of drawing accurate ethical and legal distinctions is stressed throughout the whole book. So the volume represents a valuable contribution to the emerging literature on this topic and should be helpful across a broad spectrum of readers: philosophers, theologians and physicians.

Our Culture, What's Left of It

The Mandarins and the Masses *Ivan R Dee*

This new collection of essays by the author of *Life at the Bottom* bears the unmistakable stamp of Theodore Dalrymple's bracingly clear-sighted view

of the human condition. In these pieces, Dr. Dalrymple ranges over literature and ideas, from Shakespeare to Marx, from the breakdown of Islam to the legalization of drugs. Here is a book that restores our faith in the central importance of literature and criticism to our civilization. "Theodore Dalrymple is the best doctor-writer since William Carlos Williams." Peggy Noonan. Includes "When Islam Breaks Down," named the best journal article of 2004 by David Brooks of the New York Times."

Values at the End of Life

The Logic of Palliative Care *Harvard University Press*

Once defiant of death—or even in denial—many American families and health care professionals are embracing the notion that a life consumed by suffering may not be worth living. Anything Goes *Monday*

Living Life Backward

How Ecclesiastes Teaches Us to Live in Light of the End *Crossway*

What if it is death that teaches us how to truly live? Keeping the end in mind shapes how we live our lives in the here and now. Living life backward means taking the one thing in our future that is certain—death—and letting that inform our journey before we get there. Looking to the book of Ecclesiastes for wisdom, *Living Life Backward* was written to shake up our expectations and priorities for what it means to live “the good life.” Considering the reality of death helps us pay attention to our limitations as human beings and receive life as a wondrous gift from God—freeing us to live wisely, generously, and faithfully for

God's glory and the good of his world.

The Bottom Line

What You Need For Success In Business, Leadership And Life

The Bottom Line is the book that tells you how to become successful in life regardless of education level or how much you've messed up in the past. It helps readers develop the elemental skills of business, leadership, and life. This book is for: ■ The high-powered executive made redundant by pandemic-inspired cost-cutting, now seeking a refresher course in what made her successful in the first place. ■ The unemployed teen who aspires to become a wealthy entrepreneur but has no idea where to start. ■ The recent graduate

who just can't seem to find a job in the toughest employment climate in decades. ■ The burnt-out manager who realized, during the lockdown, that she's dying to change careers, but who is overwhelmed by the challenge of starting over. Author Michael Contento knows it's possible for them, and you, to become successful because his story is less likely than anyone's. He didn't go to a fancy school. In fact, he didn't even finish high school. And yet, as the CEO of a fast-growing managed-services IT firm and a director on the national board of Big Brothers Big Sisters Canada, among many other ventures, he's successful by any measure. How did Michael go from being a problem for the boss, to running things for the boss, to being the boss, to owning the holding company that hired

the boss? He followed a set of basic principles that can be used by anyone to achieve success. At the heart of this method is the concept of D2: Deliver simplicity, drive growth. Once you're done this book, D2 will guide every business interaction you have. But deliver simplicity isn't the only imperative required to achieve success. Among the fundamental principles that this book will deliver to readers are such insights as: Your time is too valuable for Game of Thrones. 2. Don't say "can't" to the boss. 3. Take the word "kiss-ass" out of your vocabulary. 4. Communicating is about what they hear, not what you say. 5. There's no such thing as a dead-end job. Finding success difficult to achieve in business, leadership and life? The problem isn't that you went to the wrong

school or that you're not smart enough. False Positive

A Year of Error, Omission, and Political Correctness in the New England Journal of Medicine *Encounter Books*

The New England Journal of Medicine is one of the most important general

medical journals in the world. Doctors rely on the conclusions it publishes, and most do not have the time to look beyond abstracts to examine methodology or question assumptions. Many of its pronouncements are conveyed by the media to a mass audience, which is likely to take them as authoritative. But is this trust entirely warranted? Theodore Dalrymple, a doctor retired from practice, turned a critical eye upon a full year of the Journal, alert to dubious premises and to what is left unsaid. In *False Positive*, he demonstrates that many of the papers it publishes reach conclusions that are not only flawed, but obviously flawed. He exposes errors of reasoning and conspicuous omissions apparently undetected by the editors. In some

cases, there is reason to suspect actual corruption. When the Journal takes on social questions, its perspective is solidly politically correct. Practically no debate on social issues appears in the printed version, and highly debatable points of view go unchallenged. The Journal reads as if there were only one possible point of view, though the American medical profession (to say nothing of the extensive foreign readership) cannot possibly be in total agreement with the stances taken in its pages. It is thus more megaphone than sounding board. There is indeed much in the *New England Journal of Medicine* that deserves praise and admiration. But this book should encourage the general reader to take a constructively critical view of medical news and to be wary of

the latest medical doctrines.

Imitation of Life *Felice Stevens*

Benny DeMarco is the nicest guy you'll ever meet. He works hard, takes care of his little sister, and pays the bills. Childhood bullies and an abusive stepfather invade his dreams, and at times he wishes life would grant him a do-over. Would he like a boyfriend? You bet. But Benny knows love isn't for him. He's been looked over, looked through, and looked past all his life. Even worse, the one guy he's been in love with for almost two years is the biggest flirt who will sleep with anyone. Anyone except Benny. Gino Acosta smiles to keep from crying. Everyone he meets tells him he's beautiful and sexy, but Gino knows the truth. His outside may be perfect, but

inside he feels dirty and unworthy. Bounced around as a child, he yearns for someone to love and a family to call his own. He hops from man to man, desperate to belong, believing the lies he's told, but all he finds is a body for an hour or two. Things would be so different if only he knew—the man he's searching for is waiting for him, right under his nose. Benny starts dating the “perfect guy” and it's okay if there's no spark—that'll happen eventually. Won't it? Gino's fast-paced modeling career has taken off, but once again, he's trading his body for a dream. When Gino's world explodes, Benny must fight for what and who he really wants. Gino must learn to trust what people tell him—that he's got so much more to offer than a pretty face and a moment of

pleasure. If all your life you believe you're nothing, how do you move past heartbreak and hardship to reach for everything?

their house, and they've arrived in a panic. They bring the news that a sudden blackout has swept the city.
