[PDF] Characterization of Porous Solids and Powders ... Porous solids are classified as spongy and corpuscular. Many corpuscular systems are unconsolidated or only weakly aggregated. If the area of contact between assemblages of globular particles is small, the system will behave in some ways as a non-porous powder.

Characterization Of Porous Solids: An Introductory Survey ... All those concerned with the characterization of porous solids in academic and industrial laboratories will find much to interest them in this volume. It should be on the bookshelf of applied research centres involved in adsorption, catalysis, purification of gases and liquids, pigments, fillers, building materials, etc.
