Using the Java plugin with Firefox | Mozilla Support

To use Java within Firefox, manually create a symbolic link from the plug-in file in the release to one of the locations that Firefox expects. To make the plug-in available to all users, you must create the link inside of the Firefox application's directory, in the plug-ins subdirectory. Alternatively, you can create the symbolic link in your home directory, in ~/.mozilla/plugin-ins. In the remainder of this document, the text, Firefox plug-ins directory implies either of these locations.
