I have a Denon
DRW-660 on the bench
that I need to adjust
the high speed
adjustment on the two
decks. I don't have a
service manual, but I
know that most
manufacturers have a
procedure that forces
the two decks to run at
high speed dubbing
speed. Can anyone tell
me how to force the
decks to run at high
speed in playback?
Thank you in advance
for any help. Cheers.
