Changing Landscape Of Academic Womens

Women's healthcare is particularly vulnerable, because the obstetrician-gynecologist workforce is aging and is among the least satisfied medical specialists. Furthermore, fellowship training in women's healthcare in internal medicine and in maternal child health in family and community medicine involves only a small portion of general internists and family physicians.

Book Description. University and College Women's and Gender Equity Centers examines the new institutional contexts surrounding women's centers. It looks at the possibilities for, as well as the challenges to, advocating for gender equity in higher education, and the ways in which women's and gender equity centers contribute to and lead that work. The book first describes the landscape of women's centers in higher education and explores the structures within which the centers are ...
