CTA Institute

Essentially, cognitive task analysis (CTA) attempts to identify how individual experts perform a cognitive task. Such qualitative methods have received much research attention in cognitive psychology, particularly within the decision sciences and the field of cognitive ergonomics (see Crandall et al., 2006). They assume that language reflects thought – as Ormerod and Ball (2007) note, otherwise there is no ‘cognition’ to study – and also that

cognition is required for the successful ...
