In a Different Voice: Psychological Theory and Women's Development is a book on gender studies by American professor Carol Gilligan, published in 1982, which Harvard University Press calls "the little book that started a revolution". In the book, Gilligan criticized Kohlberg's stages of moral development of children. Kohlberg's data showed that girls on average reached a lower level of moral development than boys did. Kohlberg's theory had been developed on a sample of boys. Gilligan stated that

Different objects make different sounds. Sounds can vary in volume (loud and soft), and pitch (high and low). A sound becomes louder when the force of the action that is creating the sound is increased (for example, when you hit a drum harder). A sound becomes softer, or quieter, when the force is decreased.
