Annabel Crabb - Wikipedia

Most of the feminist critiques are adept at pointing out the problem, and for that I'm grateful. But Crabb's *The Wife Drought* is the first I've read in a long time that also points to a solution: working women need a 'wife'. If women in senior positions were blessed with wives in the same way that men in senior positions frequently are, we might see a participatory uptick, because women wouldn't have to choose between having a career and having a family.

I've been a fan of Annabel Crabb's writing since she wrote sketches in the SMH about the 2007 election. And I have read enough books about the intersection of feminism, motherhood and women in the workplace that I have a dedicated shelf of them at home.
