The Heartfulness Way

Heart-Based Meditations for Spiritual Transformation *New Harbinger Publications*

"A must-read for anyone interested in incorporating meditation into their lifestyle." --Sanjay Gupta,

MD, chief medical correspondent for CNN Heartfulness is an ideal, a spiritual way of living by and from the heart that is inclusive of all ideologies, beliefs, and religions. In this heart-centered book, a student in conversation with his teacher, Kamlesh D. Patel—affectionately known as Daaji, the fourth and current spiritual guide of the century-old Heartfulness tradition—present a unique method of meditation with the power to facilitate an immediate, tangible spiritual experience, irrespective of a person's faith. Our modern, fast-paced world can be an overwhelming place. Every day, we're bombarded with messages telling us that in order to be happy, fulfilled, and worthy, we must be better, do more, and accumulate as much material wealth as possible. Most of us move through our busy lives with our minds full of these ideas, multitasking as we strive to navigate the responsibilities and expectations we must meet just to make it through the day. But what if there is another way? What if, rather than letting the busyness of life overtake our minds, we learn to be heartfelt instead? Based on Daaji's own combination of approaches and practices for the modern seeker—which draws from the teachings of Sahaj Marg, meaning "Natural Path"—Heartfulness is a contemporized version of the ancient Indian practice of Raja Yoga, a tradition that enables the practitioner to realize the higher Self within. While many books describe refined states of being, The Heartfulness Way goes further, providing a pragmatic course to experience those states for oneself, which, per the book's guiding principle, is "greater than knowledge." Heartfulness meditation consists of four elements—relaxation, meditation, cleaning, and prayer—and illuminates the ancient, defining feature of yogic transmission (or pranahuti), the utilization of divine energy for spiritual growth and transformation. Using the method, detailed practices, tips, and practical philosophy offered in this book, you'll reach new levels of attainment and learn to live a life more deeply connected to the values of the Heartfulness way—with acceptance, humility, compassion, empathy, and love.

Concepts of Biology

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.
