Practical JavaScript is the most useful course that I ever took. It teaches you how plan, break things into small pieces, organize the code, use the debugger, refactoring the code and the most important how to think. At the end of each section you find out that the concepts that were introduced aren't difficult at all.

JavaScript contains a standard library of objects, such as Array, Date, and Math, and a core set of language elements such as operators, control structures, and statements. Core JavaScript can be extended for a variety of purposes by supplementing it with additional objects. The best way we learn anything is by practice and exercise questions.
