HYBRID SEED PRODUCTION IN MAIZE

this maize seed production technique manual is to improve the knowledge to farmers about technical and management activities, including increment in production of quality seed of maize. The technical and managerial farming activities will also help livelihood improvement of people living in mid-hill area of Nepal. Fig.

Maize Seed Production Techniques Manual

A seed rate of about 25 kg/ha is required, but this depends on the seed size. 10 kg is enough to plant 1 acre and 5 kg for half an acre. Small seed will go further, and give equal germination and yield performance as large seed. However, small seed should not be planted too deep (i.e., not deeper than 5 cm).

MAIZE GROWERS GUIDE - Seed Co Limited
